Thread: [Need Minor Adjustments](#)

BitLink - August 26, 2016, 1:57 am

I went ahead and created this Logo and Banner in Photoshop but my skills aren't as great as I'd like them to be. I need them to look relatively the same but more enhanced (better resolution, glossy, additions to banner, etc.). You guys can get creative with this, I am very open minded. I will give the winning picture .0015 BTC

You should take a moment and read [this](#) thread. You are not allowed to offer money for a service in the free section.
