Thread: [Auraosa - Website Redesign](#)

Ink7 - August 27, 2016, 12:18 am

I have a client in Finland I subcontract out to, this is one of the sites he had me design.
I think it came out great, and so far the client loves it.
(even though I was super lazy on the last page)

Let me know what you think.

Clean work you've got the aesthetics down. I think you could use with some more interesting font choices but they look nice.

Yea the fonts usually get changed to nicer web fonts when its being coded, I'm too lazy to download any web fonts :P

I agree with this, I don't like the font choice.

Well I couldn't get too crazy with the font seen as it is a site for an industrial company.

Looking forward to hearing from you.

Don't hesitate to add me on skype even if you aren't ready to start a project yet.
