Thread: [Cheapest place to buy PSN cards?](#)

Suply - August 27, 2016, 11:37 am

I'm looking to buy the gold version of 2k17 for \$100, but I only have 97\$ on PayPal. Does anyone know a website where they sell cheaper than retail? I used to use these sites all the time, but I forgot them...

Don't know if this is the cheapest but I like to use G2A for things like that

post thread in CE section looking for \$3 paypal for \$5 btc
once u get someone "trusted" give me there btc address. then once i send it to them they will send u \$3 Paypal to your paypal address.

make sense now?

Thanks for the explanation :D

I'm looking to buy the cards cheaper though, I know I can find them somewhere for atleast 10/20\$ off, I've done it before a long time ago.

Yea, that's my last resort. I know for a fact I can buy \$100 worth of wallet credit for under \$100, so it wouldn't make sense to just buy the game for 100 somewhere else
