A lot of cheat providers take bitcoin

you can always buy bitcoin using circle or something and then buy the cheat.

"I'm banned from Paypal, so that's out of the question."

Op already had a card attached to his Paypal, his account is now banned. He can't remove his card from this account now, meaning he can't add it to a new one.

oh, guess I missed that.

He could buy spendon gift cards and use that on paypal,
it's a bit more annoying but it works.
