Amnesia420 - August 27, 2016, 11:07 pm

You took it way too serious. Thought you made a joke avatar.

This looks good, a little bit too green, could add some rainbow colour, but for a free request, this is

nice. Thanks for the avatar and fast response.

Vouch for my homie here

Eh, maybe if I get bored in the future I can do a rainbow-in text. But for now I think i'm good with yours.

Glad you liked it.

And yeah if you request a joke, I make a joke. As seen above. However if you want me to actually do something I do. I could have put more effort tbh, kinda rushed it.

Hi. My name is Jamie and i am currently developing a game. Have a look at my HF thread

<https://hackforums.net/showthread.php?tid=5298076>

The game i am making is a bar simulator in which the player is the barman/waiter and has to pour drinks/deliver food/ clean etc etc. I am making a Kickstarter to help fund my game but im not amazing at Photoshop or GFX. I can do some basic stuff, nothing special.

I am looking for a banner/wallpaper/game teaser screen in which i can use to show off my game as i dont have enough of a game to make a trailer to show off my current work. Would you be able to help?

Ideally i would like the banner to have the title of the game which is "Ye Old Bar Simulator" as well as possibly having a drunk person and some bottles laying around. Having it in 1920x1080p would be great.

If you are able to help me then i will include your name in the game credits as well as reward you in what ever way i can.

Thank you,

Jamie

To be fair not much work I can do here. You can find a picture of Rick and Morty chilling on Google, as well as pictures of Flo. Anything in particular you want me to do? Like put them in a scene, or disfigure them, or what? Because honestly I can just go on google and find pictures like that.

I like this idea. I will get working on this. Do note I'll have to probably freehand this shit so it won't be HQ at all, but i'll do my best. Unless I can find a stock photo of a pink platypus with a robot panda on it.

EDIT:

Bro..okay. Hear me out. I can't fucking draw Pandas. I tried, so hard. Different views, angles, etc. I couldn't draw a Panda on it's back. I'm sorry man. Like I tried but trust me it looks better without. The platypus is god awful too (like the proportions). Not my proudest work. If you have any other ideas let me know. I apologize beforehand.

I'll certainly give this a shot. Do note, i'm by no means a professional and I do this for fun. The work I produce may or may not meet your requirements and if my work doesn't I highly advice going to a paid artist who can do it. I would love to be credited in a game and whatever "reward" you come up with. I will certainly attempt it.

Do you specifically want a banner with the dimensions 1920by1080p? Or do you want something else such as a title screen or whatever?

You really can't get it 100% clear. When converting to gif it does that. And now that it's no longer a png i'd have to go back and remove em. Thus, making it lose it's animation.

Anyways. I tried. I don't usually do gifs.
