OP, I've opened businesses in all different spectrums. If you have invested into this business I suggest you stop. I invested a few hundred into mine and I'm abandoning. It is such a saturated market. Literally awful to get into.

Otherwise, GL others.

In regards to open scam reports, do you mean claimant or defendant? If defendant, I will enter! :)

As for open reports AGAINST ME, There are none :3

If I happen to win, ill be registering a 0.99 domain on GoDaddy then opening a generator. (Ive had this idea for a while)

Honestly, even if I don't win, ill probably buy from that site, cheap as hell prices.

Five winners and 50 entries.

That's a 1/10 chance to win. I am happy with my odds -w-
