Thread: [Signature style \(RATE\)](#)

Eelkey - August 28, 2016, 1:52 am

Is anybody interested in this kind of style for signature. If so let me know :) We can discuss things for sure ;)

Thoughts?

W?lf - August 28, 2016, 1:54 am

Would be great if you could resize the image so we can see it better :)

Here you have it. Didn't even realize that is that big, just posted and run away! Thank you

YinYang - August 28, 2016, 3:43 am

what font is this? Milk?

I like it for the most part, the E doesn't really fit, it looks really out of place and keeps catching my eye. And not in a good way.

Keep it up though, maybe work on your lightning. Good work.

Didn't really gave a look at how it fits, just the style and idea of this kind of 3d look. Sure for clients all those things need to be checked. Nope I don't think it's MILK font, it's Angelica if i'm not wrong, I'll check it. Thank you.

Btw this one was made with Cinema4D
