Why would he ever hand one out to someone like you? Looks like you've been on the forum 2 weeks

Also OP posting proof of earnings would help with the sale

Not sales trashing or anything, but there is literally no details given on what we are purchasing besides it's a cash system. Can you go into more detail, please?

Please ban this user. Makes fake Ebooks that don't even work and will never work.
I've bought his IG Jacking Method and I did everything it said and it didn't work
Sad part is he doesn't even give vouch copies to trusted members.
I'm so done with this user!

Your thread has no information whatsoever that will push someone to purchasing this, you should give one vouch copy to a highly trusted member in the eBook marketplace.
