I simply enjoy anime in general, have always found myself entertained by a majority of what I've watched within anime (not entirely sure about the "love the industry" segment of that choice since most of the time they're putting out a bunch of crap anime in the hopes that 1-2 go viral ;/). Mostly nowadays I'd say I just watch it whenever I have the time as I find myself busier nowadays then I was long ago.

Edit: Is the quote from something with Kill la Kill? Sounds familiar.

Watch anime every week but voted for "I think anime is a detriment to society."
Anime was a mistake.

Although I find myself watching less frequently (I'm a slowpoke), I'd say I definitely enjoy anime.

Can't say I'm a fan of the industry and their horrible practices though, the situation is definitely messed up in Japan.

Perhaps there should be an option "I enjoy anime, but the industry is a cancer to society" or something along those lines for the good number of folks who've stated such an opinion ;)

I used to be able to binge anime and go full weeb mode and shit but I've grown kind of bored of it I guess? Nowadays I just catch up on stuff I'm watching when I have literally nothing else to do.
