About You / Interests / Any notable skills?:

Well I love sports such as football & basketball. I can watch & play both very well, I'm an outstanding athlete. I can pretty much play any sport but those two are my favorite. I also enjoy learning about the universe & planets. Everything about it interests me, there's always more to discover as well.

Why do you wish to join Nightmare?:

Nightmare itself, I love the name, I love the userbar & there are plenty of great HQ members in the group that I would love to be a part of. Hopefully I can teach & learn a few things while with Nightmare if accepted.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

I would love to participate in learning & group projects. As well as gaming, I've been gaming for years & years. Ever since I can remember, I'm nasty as fuck on the sticks also, main game is Call of Duty, always has been but in general I dominate every game I play, I'm just a natural & gaming is definitely something I want to take up with Nightmare.

Anything else you would like to include:

Not really, just thank you for reading & I hope I can have the opportunity to be apart of Nightmare ?

About You / Interests / Any notable skills?:

I enjoy Graphic Designing, as well as marketing some HF products. I've been building in Minecraft for approximately 3 years working for large servers, and I've recently got into Graphic Designing (check my thread.)

Why do you wish to join Nightmare?:

I have the interest in joining Nightmare, because it seems like a relatively nice group, with really HQ members. I'd love to participate in some group activities, and meet some new people to make my HackForums experience just that much better.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

I'd like to participate in Gaming, Learning, wouldn't mind participating in some Group Projects, and sometimes even mentoring with graphics. Might even be a life lesson for some of the mentoring, as I'm interested in majoring in Graphic Design.

Anything else you would like to include:

I'm relatively active on HackForums, and online in general. I haven't been on HackForums for very long, although I'm sure I have the skills to market products and have designed for some relatively HQ users.

Depends on who your friends are. If they are trustworthy people or if they are just some Joe Smith users, or already in the group, or celebrities.. All depends but again it's not going to make him decide specifically because of a vouch so lets move on from this..

Faith Connors - August 31, 2016, 1:41 pm

Age: 17

Time Zone: EST/GMT -5:00

Spoken Language: English, Polish, French, learning Japanese slowly.

About You / Interests / Any notable skills?: Basically I'm some nerd who knows more about computers than the average Joe. I take some interest in music production, a bit of scripting/programming, and Chinese cartoons. My notable skills would include being able to run pretty fast, climb things with ease, and typing at like 51 WPM, which I just tested now after a really long bike ride and being tired.

Why do you wish to join Nightmare?: Well, I remember when the first information thread was "announced" and I was really interested in it. It seemed a little, almost exclusive, so I kinda gave up. I also didn't really have any interest in marketing or anything, so I didn't really join. Now that this more general Recruitment is here, I feel like I'd have a way higher chance of getting in, and because it seems like a great group, I'm gonna take that chance.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc): To be honest I'm not much of a gamer and hate almost all gaming "culture." I'm not really sure what kind of group projects would be going on, but if I could somehow contribute to it, I would. Learning is kinda implied I think. Maybe I could mentor people, but the only thing I really excel at is making music and climbing stuff, and I can't really teach people how to climb stuff over skype.

Anything else you would like to include: I mean, if you want to know any more about me for some reason, you can just PM me or something. Dunno why you'd want to learn more about me though.

About You / Interests / Any notable skills?:

My name is Daniel. I'm currently active duty in the United States Navy. Outside of work, I enjoy

reading, xbox, hiking/camping/fishing. On the forums I am heavily involved in the gamertag market and have been going on 4 years now. Previously a Moderator on F/K, I've done thousands of deals and have become notorious for middlemanning numerous successful deals. Some have considered me one of the most trusted people to deal with. I haven't much built my reputation on HF as in all honesty I've rarely had a deal here with someone who wasn't shady. In my last deal, my gamertag NN was pulled back on me while I was out to sea. It was a \$500 loss.

Anyway, on the side I have started getting involved in GFX, creating sigs, avatars, and userbars. I have so far created two signatures for Nightmare as I was requested to by \$1000 bill. It is more of a hobby to me, and I don't expect to/or intend to profit much for it.

Why do you wish to join Nightmare?: I wish to join Nightmare in hopes to simply become more a part of Hf, meeting new people and making friends outside the market. So far, my life on this forum has been lived solely in the marketplace and I have rarely explored other areas of the forum. This will be my first group on here ever if I am accepted, and it is one that I believe will contain people who share my interests and views on the world.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

Gaming primarily and possibly providing some GFX (signatures) for other members free at charge . Let's make Nightmare look professional:)

Anything else you would like to include:

I hope I made my application short and sweet, and I thank you for the opportunity.

Hi I'm Agreeable - September 2, 2016, 9:29 pm

Frukt - September 3, 2016, 10:16 am

Age: 16

Time Zone: UTC+01:00 (Swedish Time)

Spoken Language: I can speak fluently Swedish and English

About You / Interests / Any notable skills?: I'm a 16 year old boy from Sweden that spends most of his time in front of a screen. I would never decline if a friend asked me to outside since I love fresh air but still have a great passion for programming, gaming etc. I've started doing [urban exploration](#) and I love it! Searching through abandoned factories, it also happens that I search "non-abandoned" buildings.

I also love to spend my time in front of the computer, I play games with friends and I sometimes decide to program in different languages. I'm that friend that is up to everything and has basic knowledge about everything. Skills? I would not say that I have skills, just a great passion for everything and up for everything.

Why do you wish to join Nightmare?: Since I do a lot of different things in my spare time I always look up new cool stuff and things to try. The thing is I don't have anyone to do these cool things with because they are not interested or simply not able to do it. I struggle to find people that are interested and able to do it, for instance when I ask my friends they can't nor they don't have the basic knowledge for it, that's why I think joining a group could help me. I can easily ask if anyone is up to do something and we can do it. I mean most people on the forum has the knowledge but my friends don't. I think that joining a group can help me get closer and actually get friends to do these things with.

What type of group activities would you like to participate in?: I love gaming so count me in on gaming. I also would love to mentor new people to new areas of the internet. Learn them code, they can ask me for help and I can help them fast. I would also love to join in groups where we do stuff together. If we decide to take down a website, we can all do it together, play a game together, code a program together. More people means more power and creativity.

Anything else you would like to include: Nothing more than I covered already. I love to learn and I would love to learn from members in this group.

About You / Interests / Any notable skills?:

My name is Brad and I'm overall a really friendly person. I'm generally open minded about any subject and love finding new ways to develop new skills. Right now I've been getting into GFX and find it really fun. I used to run/work on projects such as hosting companies, online virtual games and other virtual products. I deem myself as a really quick learner and always find new ways to pump out some material for other people to use/look over.

I'm also pretty into gaming. I have done graphic design for some online gaming clubs (GTA related) and plan to expand my knowledge/skills once I feel I'm ready. I have been in the competitive gaming scene for just over 5 years now and plan to stick with the scene throughout its time.

All in all I deem my skills to be; Graphics, general knowledge, competitive gaming and especially marketing. I've been in the marketing game for quite a few years and absolutely love it. Right now I'm doing Administration (ignoring the fact of my 3 month work exemption) and even that has its ways involving marketing.

Why do you wish to join Nightmare?: I want to join nightmare because I deem this as an active group. And keeping that in mind I would contribute more to the group. I'm a really friendly person and am extremely easy to get along with. I have done a fair few giveaways in group names, done some signatures for specific groups (such as nightmare) and I will try get as involved as I can in the group itself. I am a really active member and can spare a lot of my time on this forum as I'm currently off work for a few months but even after that I would still be active. I have never had a complaint made on me and always try to resolve any little conflict that is caused involving me. I know I would generally be a good fit in this group.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

Anything else you would like to include:

I would participate in teaming up and gaming if;

1. Members who are not of my region don't mind playing with someone who will constantly lag
2. You have some Australian members willing to grind. (Optional ofc)

I also have released guides in the past and plan to work on more so I could duo up and make a

complete version. I love mentoring people if I already have the knowledge about the subject and would definitely see to linking up ideas to pump out something brilliant. I'm always willing to learn new things so if a group member wants to establish something and is willing to teach something foreign to me then I will happily learn.

Thankyou

About You:

Nothing much to say, I'm doing my final year at secondary school and hoping to get honours in two of my subjects (Both IT releated), apart from this, I try to be online on HF as often as I can. At university I plan on doing cyber security as a minor with general IT as my major.

Why do you wish to join Nightmare?:

I've seen a lot of members of nightmare around on HF, the idea of being apart of their community seems pretty rad. Otherwise, helping out new-members

(when I stop being one) would be a new experience for me and helpful to you guys.
it's the general obvious reasons, y'know, that "I love the name and I love the userbar"

What type of group activities would you like to participate in?:

Everything I can really. The point of being in a group in my opinion is to be as active as possible and help out with you can, this is what I plan on doing.
However, if I needed to choose an area where I would be a specialist in, I'd love to help out with group projects and generally make the community tighter.

Max P's Application For Nightmare

Age: 15

Time Zone: EST

Spoken Language: English

About You / Interests / Any notable skills?:

I am a talented online Private Investigator, I have a great deal of experience with Graphic Design and I am currently running a free service. I am decent at Java and I am currently learning C# and C++. I'm very interested in software design along with graphic design of which I am taking AP this year (Sophomore).

Why do you wish to join Nightmare?:

I have been wanting to join an official HF group for a while and recently have come in contact with FruktFPS who is a part of Nightmare. I decided that I would really like to help out with the groups needs. I also have great pride for the group to which I apply, and Nightmare is one of the most reputable.

What type of group activities would you like to participate in? :

I do not really play games any more, so gaming is not where I will be spending my time. I have mentored several people in GFX and Doxing in the past and I would be happy to continue with that. I love to increase my knowledge on certain topics as there is always more to learn and room to improve.

Anything else you would like to include:

There is not much else that I need you to know about me, I hope that my account age does not affect how High Quality or Helpful I appear as a user. I have contacted Mino about my account age, and he can fill you in with the details, otherwise, PM me.

Thank you for taking the time to read this.

Ominous's Application For Nightmare

Age: 17

Time Zone: Central

Spoken Language:

English (Main)

Spanish (Barley)

French (Barley)

About You / Interests / Any notable skills?:

I am a computer programmer, who is still learning, but I know a few languages. I am a private investigator both online, and offline. I plan on working for NSA, or the FBI in a few years.

Why do you wish to join Nightmare?:

Well, I know Nightmare. Nightmare is one of the most HQ HF groups, and I feel that I could learn, and even teach within nightmare. It would be a pleasure to be in Nightmare.

What type of group activities would you like to participate in? :

Well, I am an ex-gamer so really gaming would be very rare. How ever I do occasionally play mobile games. I love to code, and do private investigation services/tutorials/help.

Anything else you would like to include:

Well, nothing much. I was recently denied UB3R, how ever that doesn't mean I am not HQ. I try to contribute to the forum as much as I can, and always be HQ.

Thank you for reading Ominous's Nightmare application.

About You / Interests / Any notable skills?:

I'm from California and I love swimming. I'm very interested in Cryptography, Cyber Security, R.A.T.S, Coding, and anything related to technology. I'm very good at mentoring people and I love to do it.

Why do you wish to join Nightmare?:

I wish to join Nightmare because I'm very interested in HF groups as I've never been in one. Also I'd like to meet new people and have a unique experience. The userbar also looks pretty sick.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

I would love to participate in CS:GO (although I'm pretty bad at it), mentoring other people, learning new things, and helping everybody with anything in the group. I can also participate in group projects if needed.

Anything else you would like to include: Nope

Russ. - September 9, 2016, 11:02 pm

User's that fit what I am looking for will be added into Nightmare's Prism sector. Keep the applications coming.

About You / Interests / Any notable skills?:

I am a website developer/coder. I'm also a very competitive gamer. I have around \$400 in earnings off of competitive Call of Duty.

Why do you wish to join Nightmare?:

To meet new people who I can learn new things from. To hopefully gain more knowledge through other members I encounter throughout my time in Nightmare.

Whether it be knowledge in the Marketing & Business or whatever other parts of the group there are.

Also, just gain some other friends along the way.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

Gaming, learning, and some group projects would all be fun things to participate in.

Anything else you would like to include:
Not really.

About You / Interests / Any notable skills?: Actually I am really interested in technology and have

ever been. Already when I was a little kid I played with HTML. Anyways I love to code and I love to chill with friend or play games with them. Currently I usually code stuff in VB.net and Autolt but I could do PHP, Java & C# too. Maybe I'll start coding in another language soon.

Why do you wish to join Nightmare?: Groups are cool. Being in a group is even cooler. I think Nightmare is an awesome group for developer - so it fits to me!

What type of group activities would you like to participate in?: Gaming (EUW), helping people (so mentoring kinda), learning and all cool things that are interesting!

Anything else you would like to include: Thank you for reading my application!

About You / Interests / Any notable skills?: I think of myself as a very proactive person, if I want something I'm not going to sit and wait for it to come to me. I'm really into Graphics and NetSec. I'm a self taught designer and I'm trying to improve myself every day. About NetSec, I don't really know much since I just got into it, but I am definitely willing to learn. And at last I play a lot of games and I enjoy it as much as the day before.

Why do you wish to join Nightmare?: I feel like this is a good group for me to learn and teach things in, expand not only my knowledge but also the knowledge of others.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc): I'm into anything as long as I can help and be useful.

Anything else you would like to include: Thanks for taking the time to read my application ?

Why do you wish to join Nightmare?: To improve myself in different skills, talk to different people and overall have a fun time.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc): I would love to participate in gaming, mentoring, learning more about pentesting, doxing etc.

Anything else you would like to include: I have been a member in Nightmare before, loved it and overall had a great time with this group. Good luck to those who are applying!

?ersace - September 11, 2016, 11:31 am

Age: 16

Time Zone: UTC 1:00

Spoken Language: Dutch, Spanish, and English.

About You / Interests / Any notable skills?:

I've been doing graphics design since around January; I always liked working with digital hardware and making art. I recently purchased Creative Cloud by Adobe to get the most out of my skills. I currently serve a free design service which can be found [here](#). With this service, I hope to bring people a smile on their face without having to pay them in currency. I do most of my work in Adobe Photoshop, and I am currently working my way up to Adobe After Effects and Adobe Muse. I am a huge fan of flat designs as that is trendy and catchy for the client's eye, that is why most of my created art is either Flat or 2D. I have done off-site work multiple times for free and hoped to bring my knowledge over to HF's users.

I like to play and watch sports most of my time besides sitting on the computer. I currently play soccer as well as rugby; both are team sports which mean I can work in a team but also for myself as I am doing in my graphical experience. I've been doing soccer for ten years and rugby for around four years now. Besides sports, I also like to hang out with friends and such. Were mostly going to movies, fun parks, cities, and much more.

I do game sometimes; it's not my main focus, but I can still fairly enjoy the art and storyline of a game. My favorite games are ARK, Uncharted and Watch Dogs. Uncharted and Watch Dogs are unplayable for me now because I don't have a Playstation available anymore. I do still play ARK sometimes but not as often as I used to play it. I am hyped for Battlefield because EA's storylines are always at it's best in the BF franchise. I sometimes enjoy the singleplayer more than the actual Multiplayer servers. I did play the Béta, and it was nice, but my PC can't handle High or even Medium, after L33T my main goals is to acquire a new gaming PC to process and handle designs faster and let games run smoothly and in ultra-realism.

Why do you wish to join Nightmare?: I would like to join Nightmare to expand and spread my knowledge about arts and sports to the rest of the community, I am also hoping to meet new friends and users who can teach me the advanced details within HackForums and around.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc.): I'll mainly focus on learning and group projects.

Anything else you would like to include: I hope to meet some new friends within Nightmare to play games start business and talk about News and related topics.

About You / Interests / Any notable skills?: Bit of Simple Computer Programming, Social Engineering, and Graphic Design.

Why do you wish to join Nightmare?: I'm interested in joining Nightmare because I believe it would be a nice opportunity for me to learn some things, and what better way to do that then to join a group full of HQ users?

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc): I'd be interested in joining most if not all group activities. Gaming, mentoring, learning, and group projects are all something I can do.

Anything else you would like to include:

Isn't that much I'd like to include, although I'd just like to say I respect your decision whatever it is. Glad you took time to read my application.

The GRim - September 13, 2016, 2:39 am

We have our own blackhat subforum inside the group ran by Russ. One can only stay nice for so long.

There's also another crypto coin trading/marketing subforum ran by Maximus too.

About You / Interests / Any notable skills?:

1. Always in for chilling, I'm as weird as I'm fun
2. Real Estate, Lucid dreaming, design & art, horror related movies, games and trips
3. 2 years webdesign in college

Why do you wish to join Nightmare?:

I'm totally into Grim stuff, would love to share experiences with group members, starting projects, making a group.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

Not sure which activity I'd stick to, but I'll definitely participate in mentoring Photoshop / Illustrator / Design, games. Sharing life experiences on topic. Learning is a major one as well. Not so much in games, but I'm interested in group projects!

Anything else you would like to include:

I haven't been the most active member around here, that's why I'd like some change starting with

joining a group which suits me. I'm way more dedicated inside a group than on general base, this is part of the reason why I set up this application. Hopefully there's a spot left there for me, can't wait!

About You / Interests / Any notable skills?:

Interested in whitehat malware removal stuff.

Electrical circuits designing.

Cracking in free time.

Checking websites for any vulnerabilities and reporting.

Earn money with my online business run on HF.

Why do you wish to join Nightmare?:

Have heard a lot about the Nightmare since it's one of the oldest groups of HF.

I'd like to crawl in and see the quality of the members and learn the skills which I don't possess and teach the skills that I own to others.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

I'm more into learning and a firm believer of learning till death. I play few games too but those are only on mobile since the PC configuration is not upto the mark to play current trending games.

Anything else you would like to include:

I was in Synergy, I respect the people there and the leader but I was inactive for few days(3) and

got removed without prior notification but I accept that it was in the T&C and had read about the rule.

Currently looking for a more active group so decided and landed here.

About You / Interests / Any notable skills?: A little about me would be that I love to work with computers. By working with computers I don't mean like building one, knowing its parts, etc. what I mean by working with it is figuring out how to correctly figure everything out on my own whether it be to improve network performance, computer performance, or locating certain files. Improving network performance is obviously something that I did need help with, but with things like locating files on your computer and leaving no trace of it; I'm pretty experienced in this. I do have some knowledge in C# as to reading it rather than writing it. I would say playing games like RuneScape or Minecraft make the time pass by and are somewhat amusing (mostly RuneScape). I am a YouTuber with over 1.9k subscribers (<http://www.youtube.com/Vykz>) and love meeting fascinating and interesting people.

I had a problem with my computer in specific where the ping would randomly spike to 3000 out of no where about every 5 minutes. After I did some digging, I managed to figure out the problem on my own involving a certain Service on my computer. I did ask HF for help but eventually figured it out on my own.

Thread: <https://hackforums.net/showthread.php?tid=5392747>

Why do you wish to join Nightmare?: The group overall seems like a very HQ group. While i do from time to time like to make a post seem like a meme, when needed I can be serious about a matter and have the right attitude.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc): I would love to participate in gaming as well as learning. Group projects is something that depends on various factors such as who I'm working with, what we're working on, and how much knowledge I have in that field. Being in an environment surrounded with people who know what they're doing and are kind enough to help you out every once in a while is something that I look forward to, and would most likely motivate me more to work on group projects. Mentoring is something that I have the ability to do but I choose not to do it, just because of how some things I like to keep to myself.

Anything else you would like to include: I'm just hoping to get accepted into the group and meeting new people. It would be pretty nice to also have that nightmare title bar.

About You / Interests / Any notable skills?:

I am a down to earth member of HF. I do not spam post (note my average post count) as I am not trying to be LQ. I am interested in learning a few aspects of "hacking" and been steadily reading up on them. I am eager to learn the Crypto scene and have been trying to find a good group of mentors (found a few and still learning) I am an excellent salesman, always have been good with words.

Why do you wish to join Nightmare?:

I have been attempting to join nightmare (lounge whores and crypto sections) as I mainly see HQ and productive members in this group, I am trying to surround my self with that type of personal as it will help mold me into one.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

I would love to mentor people, learn new skills and absolutely help with group projects (to the best of my capabilities).

About You / Interests / Any notable skills?:

I am a student at a university in Canada, working towards a BSc in Computer Science. From this, I have developed some skills in programming, most notably in the language of Java, but I also am decent at Python. Another thing perhaps worth noting is that I am pretty good at math. I have interests in learning, gaming, meeting new people, and a few sports.

Why do you wish to join Nightmare?:

Really, it comes down to making new friends, meeting new people, and having some freedom to express my opinions when needed without the concern of being ridiculed. I love learning and from that, maybe I can acquire some new skills or learn something new, as well as allow people to learn from me.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

The main ones that caught my eye out of that list are gaming and learning. Of course, if my skill set is seen as valuable by anyone, I have no problem teaching them. Other than that, I usually find the ability to give my opinion on something when it's needed, while trying to be respectful to others.

Anything else you would like to include:

That is all, thank you for taking the time to read my application and I hope to see some Nightmare members soon!

About You / Interests / Any notable skills?: I have many interests my main being penetration testing. I'm always up to learn something new, if I want something bad enough I will continue to push and push until I've reached a level of skill I feel comfortable with or until I've achieved what I first set out for. I am currently a part time IT Technician for a small and local buisness nearby, I also recently achieved an Associate IT degree which has immensely helped with work and is the only reason I am where I am today. I haven't been posting on HF actively in over a year or so as for school was hell on it's own, now that I've got PLENTY of spare time on my hands I'd love to come back to the community in a more mature/knowledged manor. This being said I'm fairly experienced software and hardware wise as I do alot of work on my outside of work as well. If you have any questions feel free to shoot me a PM and we can chat!

Why do you wish to join Nightmare?: I'd like to join because I'm always up to meeting new people and sharing/recieving new knowledge among friends/peers. I can help out in any way possible, also as I am currently only working 3-4 days a week so I can and will be around to chat and help with anything anyone would need help with. I'm also a very friendly and open person and I'm not one to judge.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group

If you guys are doing anything relating to hacking I'm definitely In but my skillset is much broader than hacking, so I'll likely contribute to alot more than that.

Anything else you would like to include: I've got at least a little bit of experience with most things.

I'm very polite, and I have a passion for teaching people stuff. But I don't have such a big ego that I can't learn from others. I believe a great teacher is also a great student, and that's something I learned from my dad who is a professor.

About You / Interests / Any notable skills?: I am currently studying mechatronics engineering with a minor in astronomy and biology. I am extremely personable with a huge appreciation for programming and hacking. I have excellent skills when it comes to maintaining professional relationships and my soft skills have been really honed. I yearn to learn everything there is to know about the technological field. My interests lie in investments, programming, photography & graphic design, social media, consumer electronics and physics. I am currently one of the website developers for my school, (actually it's more of a content manager), I also enjoy debates and I would like to think of that as a notable skill as well, knowledge is ever expanding so I allow myself to always be modular with my thoughts and theory. I also learn extremely quick, and if a subject interests me I work quickly to make myself accustomed to the topic.

Why do you wish to join Nightmare?: From the number of people I talked to, nightmare seems like a really close knit community. It would be very beneficial for my professional skills to be associated with the members of this group. From what I have noticed there are people with various

personalities, but they never let it get out of hand, all I have noticed are very well thought out posts by the members and I would love to be associated with that. Aside from that, the design of the bar also captivates me, its absolutely stunning.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc):

I want to learn from the users and host workshops for other and newer members, because explaining something allows you to better understand the topic. I also want to get strongly involved in group projects and with that I would be able to utilize and better my skill set.

Anything else you would like to include:

I like talking investments and possible ways to earn money, its somewhat of a time passer for me but I absolutely hate e-books and it really urks me to see that the entirety of this website be turned into that. I want to work with things related to hacking, development & programming. So I think this group would be super beneficial for me.

Thanks for your time <3 ?

Age: 16

Time Zone: GMT + 3

Spoken Language: Romanian is my first language and I speak English fluently and most likely without errors.

About You / Interests / Any notable skills?: Student, interested in photography, writing, lifestyle and business. One of my biggest dreams, besides being spiritually happy, is to become financially free, and as of now I am in that position. I've been a gamer when I was younger, so I still play games from time to time.

Notable skills: eWhoring, Social Engineering, Marketing, Basic HTML & CSS, eCommerce, ex-YouTuber, Photography, and Computer Technology / Hardware.

Why do you wish to join Nightmare?: I think this group has the right people inside. There's a lot of open-minded people to interact and collaborate with. I love the idea of meeting new people and creating new bonds and partnerships.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc): I would like to get involved in discussions about anything. I would also like to mentor some people and share my knowledge, learn from others, and group projects sounds brilliant. Gaming would be something cool but I'll have to ask my time about it

Anything else you would like to include: Thanks for the time and the opportunity. Hope to hear from you guys soon! Take care!

Muddy Waters - October 10, 2016, 4:44 pm

Starting off by saying, I don't believe in fancy applications with stacked group logos, ill just write a bit about myself.

Age: 20

Time Zone: CET

Spoken Language: Swedish, English

About You / Interests / Any notable skills?: Muddy Waters, named after the Chicago legend. I happen to have a lot of different interests but mostly I use my spare-time listening to music, analyzing mostly trying to figure out what they are playing and trying to find it on the guitar. Harmonica collector (Herring, Hohner, Seydel the brands I collect). Aquarium guy, breeding my own tropical Africans from Lake Malawi and actually going pretty well right now might show you some of the fish tanks some day. Any notable skills? Hmm don't know what to say here, did a lot of gfx for several years but haven't done for about 6 months now, I play the guitar, piano and harmonica nothing extremely advanced but I know a lot of music history, especially rock and blues.

Why do you wish to join Nightmare?: I feel like it's time for me to settle down in a group now, was previously in Enigma and Eternal, both groups got sold or something and everyone was kicked. Kinda sucks meh

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc): Chatting, Gaming, Learning, Some Group Project maybe.

Anything else you would like to include: I'm a huge fan of Grim and Orgy.
