What can you contribute to Nightmare's Underworld?:
When it comes to tools, I have a lot of experience with Exploit Kits, RATs, Botnets, DDoS.
I am also an experienced PHP developer.
How experienced are you in the field of Crypto Currency?:
Personally, I made a lot of money with Bitcoins when it went up to 1400\$.
I had a Bitcoin farm which I soon had to shut down because it became unprofitable.
<https://hackforums.net/showthread.php?tid=3334003>
Couldn't post any updates due to personal reasons.

Been trading bitcoins for local currency on local bitcoins for almost two years now.

Most Notable Achievements on HF:
A tutorial I made about hacking wifi networks.
I made this when I just joined hf .
<https://hackforums.net/showthread.php?tid=1467214>

Room Rat:
<https://hackforums.net/showthread.php?tid=3991892>
People had access to my room and were controlling it through a web panel.

It was a small project that I made with Raspberry Pi and Arduino.

Facebook Hacker:

<https://hackforums.net/showthread.php?tid=3827157>

This was a successful product but had to be shutdown cause Facebook closed the API.

Sparky Java:

This was the first product I sold on HF it had a lot of users and was probably the first Web Java Drive-by.

<https://hackforums.net/showthread.php?tid=1983453>

Any other comments:

I have been inactive on the forum for almost two years. Just started to get active might launch a few products/services soon.

I was known as m4dh4ck3r. Changed the username a few days back.

What can you contribute to Nightmare's Underworld?

Any knowledge I can share, I am very familiar with cryptocurrency as well as HTML & CSS to help with any front end web development needed for the group, as well as being a linux sysadmin and experienced website / forum maker

How experienced are you in the field of Crypto Currency?

I have been using Bitcoin for 99% of my online transactions and purchases for the past 2 and a half years, and I have dabbled quite a bit into ASICs and mining as well as some of the other cryptocurrencies, such as Monero and Dash

Most Notable Achievements on HF:

Most of my time is spent in the Marketplace, and I am rather new here so no massive achievements, however I am planning on releasing multiple products soon in the future

Any other comments:

I generally spend alot of my time online, and enjoy learning new things as well as teaching and helping others with whatever I can, and would love to join Nightmare to try and share my knowledge with others and maybe learn a few things in return as well.

Good luck to all those Applying!

Gørilla - August 30, 2016, 12:01 pm

What can you contribute to Nightmare's Underworld?: I can contribute a lot towards the group including project ideas, project involvement, advertisement and graphical design.

How experienced are you in the field of Crypto Currency?: I'd say I'm a bit above beginner. I have BTC and that's about it. I am more of a marketplace kind of guy, and figured that's my field of expertise in the group.

Most Notable Achievements on HF: Making the HF News Interview, Receiving the discontinued YouTube award, and being here for over 5 years without problem.

Any other comments: I'm a hard working member of this forum, where I've been a member for over 5 years, and I'm willing to put time into the group to make us a well known, professional principle. I'm also online 10 hours a day and I'm constantly working on new projects. I'm teaching myself how to code and learning how to become an intermediate level .NET coder.

Oscura - August 30, 2016, 1:24 pm

Hi. I'm Oscura and this is my application for your group.

<https://hackforums.net/showthread.php?tid=5390534>

Age: 19

Time Zone: GMT + 1

What can you contribute to Nightmare's Underworld?: I'm a versatile coder. I'm majoring in Computer Science and am able to create software and web applications for the group which can be sold or given away. I've done multiple big projects off-forum as well as for other professional partners. I tend to think of myself as a young professional. I've also done several interems at

software companies which enhanced my performance on working in team, and my profession communication skills towards other people/customers.

How experienced are you in the field of Crypto Currency?: I know enough to do the things I have to do.

Most Notable Achievements on HF: Looking at the threads I got the most replies on: I coded an Adfly bot, basic crypter (not doing that anymore though), a Java Drive-by and some more things. I had a very succesful E-book a time ago and ran a coding serve which always brought quality to do the customer.

Any other comments: If you are searching for a young professional coder to enhance your team, then I'm the one you're searching for. I have experience in software (Python, C/C++, VB.net, C#, Assembly, ...) and web applications (HTML, CSS, JavaScript, PHP, ASP.net, ...).

What can you contribute to Nightmare's Underworld?: I can contribute towards the group projects and give some ideas, project

How experienced are you in the field of Crypto Currency?: I been using Crypto Currancy for over 2 years now i would like to say Average experience

Most Notable Achievements on HF: I have done some comunnity giveaways / useful threads i can link them if required

Any other comments: I m a cool and Friendly member looking forward with joining nightmare sub section and participate in Projects

The GRim - August 31, 2016, 1:10 am

Please include that The Underworld is another subforum inside the group subforum and you will be able to use both the main sub forum and underworld sub forum once you join.

You are not allowed to use prism sub forum tho. It's for darker purposes and we will start with it only when the Omni puts up the password.

TheChi?f - August 31, 2016, 1:12 am

Good luck with this recruitment, finally someone who can hopefully make some the group worthwhile. Will leave it at this.

What can you contribute to Nightmare's Underworld?

The interest of the hacker class lies first and foremost in a free circulation of information, this being the necessary condition for the renewed statement of the hack - My contribution.

How experienced are you in the field of Crypto Currency?

I work for Darkcoin and Bitcoin, nothing else, n/a pp (scammed me over \$5k - limited and not allowing me to withdraw)

Most Notable Achievements on HF: <https://hackforums.net/showthread.php?tid=5387794>

Any other comments?

Whose property is knowledge? Is it the role of knowledge to authorize subjects through education or is it our will to chose which knowledge we want to devour?

ENd/

~ Left HF For Good ~ - August 31, 2016, 8:29 am

Age: 16 (17 in sept.)

Time Zone: Central

What can you contribute to Nightmare's Underworld?: Middle man service, help with programming, and currency exchange.

How experienced are you in the field of Crypto Currency?: PayPal, and BTC | Highly experienced

Most Notable Achievements on HF: Helping to those in the community in all fields. Also donating about \$200 to members. (in total)

Any other comments: If I am accepted shoot me a PM.

Weco - August 31, 2016, 10:31 am

Age: 16

Time Zone: UTC + 1

What can you contribute to Nightmare's Underworld?: I am a really experienced coder and I can teach members or I can work on projects together with members.

I speak german and english, so I can do translations for members.

How experienced are you in the field of Crypto Currency?: I know the basics about crypto currencies. I always make some mney when the btc price goes up again, but that's it.

My main talent is coding and that's the field I want to apply for.

How experienced are you in the field of Software Development?: I code in Java now since a bit more than three years and I gained a lot of experience.

I have basic knowledge in nearly every other major programming language (And good knowledge of C# because of Java).

Most Notable Achievements on HF:

[Pokemon Go Multi Account Manager:](#)

_This got a lot of users in the first two days after the release. Then the Pokemon Go Api's were changed and I didn't have enough time to update it because of personal reasons.

[Sp@m Nuke \(now Spam Nuker\):](#)

_This project is now over 8 month old and the ownership has been sold already two times and it still generates a lot of sales.

Any other comments:

I spend a lot of time online on HF and would love to join an active and high quality group.

t0rch - September 8, 2016, 10:45 pm

Age: 17

Time Zone: EST

What can you contribute to Nightmare's Underworld?: Avid Programmer for 5 years, quick learner, love sharing knowledge

How experienced are you in the field of Crypto Currency?: Not overly. I participated a lot in crypto currencies back when omnicoin was active and did a few giveaways. Like I've stated though I'm a quick learner.

Most Notable Achievements on HF: Omnicoin Lotteries. Different minecraft reviews (texture packs etc).

Any other comments: I'm just looking for a group of like minded people in a low-bullshit environment open to exchange of thought. I have a latency of 600ms so video/voice chat is out of the question. So is online gaming at the moment. (Working on changing that)

sLACKER - September 9, 2016, 9:36 pm

Age: 30

Time Zone: Central (US & Canada).

What can you contribute to Nightmare's Underworld?: I am able to offer intelligent conversations, give always, positive environment and actual advice pertaining to several topics.

How experienced are you in the field of Crypto Currency?: beginner / novice (very eager to learn)

Most Notable Achievements on HF: Nothing notable besides reselling items for profit.

My Pokémon go help desk.

<https://hackforums.net/showthread.php?tid=5369505>

My attempt to help botthers with proxies:

<https://hackforums.net/showthread.php?tid=5369324>

Any other comments:

I may not have a high thread count, ignorant amounts of reputations, made tons of money etc. But I can ensure you I am a very HQ user whom is eager to learn more and meet other HQ users. I am easy to get along with and would like to join a tight knit group like nightmare.

Thank you for your time and consideration and look forward to hearing back one way or another.

What can you contribute to Nightmare's Underworld?: marketing experience,unique ideas

How experienced are you in the field of Crypto Currency?:novice-intermediate i have owned,sold and traded bitcoin as well as altcoins and on a few occasions mined them

Most Notable Achievements on HF: ive done several contests released a money making tutorial and plan to do more contests in the future

Any other comments: been here six years and counting

problems.x - September 10, 2016, 10:33 pm

Age: 16

Time Zone: GMT + 12

What can you contribute to Nightmare's Underworld?: My marketing & business experience

How experienced are you in the field of Crypto Currency?: I know a tiny bit about btc, and i use btc quite a bit, not an expert.

Most Notable Achievements on HF: Not really that sure, I've been in many groups, done many things here.

Any other comments: Nope, thanks.

OP, i believe i have you on skype. If you need me to go into further detail, I can explain everything, prefer not to here.

SIM-2848947 - September 10, 2016, 11:56 pm

Age: 16

Time Zone: GMT

What can you contribute to Nightmare's Underworld?: I would love to contribute through helping out with the technical aspect of projects. My main skill-sets include; PHP, C#, Java and Node.js and would love to use these skills to help complete goals set by the group.

How experienced are you in the field of Crypto Currency?: Quite a bit. Been using BTC for a few years now, mined it for a while and have messed with Doge, ETH, Dark and LTC. Also got into trading them for a few months.

Most Notable Achievements on HF:

<https://hackforums.net/showthread.php?tid=5206206> and being apart of writers.

The GRim - September 11, 2016, 4:32 am

Good luck with this Maximus.

This has a lot of potential.

Roger Waters - September 11, 2016, 5:52 am

Just got recruited to this group. Can vouch that this recruitment is recruiting.

Dreadmore - September 11, 2016, 3:23 pm

Age: 16

Time Zone: Pacific Time Zone

What can you contribute to Nightmare's Underworld?: I can actually contribute quite a few things to Nightmare's Underworld, some of them are my Ingenuity, moderate coding experience, large knowledge on computer science, everlasting patience, and in my opinion the best trait of all the trait of actually wanting to learn and continue to expand my knowledge on computers. Other than that, I would personally say I am quite educated in subjects that don't have to do with computers as well such as numbers and comprehension.

How experienced are you in the field of Crypto Currency?: I will be frankly honest I am not a legend with it, but I am also not terrible with it. This is still an area I need to grow on and learn about which I have actually been doing recently.

Most Notable Achievements on HF: Honestly, I have had this account for almost 3 years now and I have been off and on due to me feeling like I had no part in the community which made it boring. As I actually decided to expand and make friends within the community, it has become more fun and interactive. So, to answer your question my most Notable Achievements is making friends within the community and helping others within the community.

Any other comments: As you seen above, I am sure you deduced I am nice guy. There are a lot of things I could put in here but I feel the only thing worth stating is that I know you will find me as an asset to Nightmare with the many traits listed above.

Warmest Regards,
Dreadmore
