Thread: [Does anyone recognize these patterns/symbols?](#)

Mr. Robot - August 30, 2016, 9:36 pm

I need help recognizing these patterns/symbols

Here is the entire image for you to look at if you can see any correlations.

Juan The Young Chef Don - August 30, 2016, 9:38 pm

This is hermes' sign in greek it's the greek alphabet letters omicron and iota combined

BR?ND?N - August 30, 2016, 9:46 pm

1st one kinda looks like a fucked up strand of DNA, or fishbones. Maybe ribs? ldk.

Codefuser - August 30, 2016, 9:48 pm

Is this from the Illuminati contest thingy?

Mr. Robot - August 30, 2016, 9:48 pm

Indeed it is.

<https://hackforums.net/showthread.php?tid=5388845>

I'm thinking the red and blue may have something to do with a 3d overlay?

Premortal - August 30, 2016, 10:21 pm

It looks like the outer white pixels on the left side of that first image are progressing as per the fibonacci sequence. Can't really tell what's going on on the right side. Maybe you could post about it on Reddit like others have done.

Thanks for your input mate, we had a look at that but couldn't see anything without manipulating the image. Trying to examine all options before moving on.
