My first pay check was 2 months ago and the first thing I spent some of it was taking my family out for lunch. Think I also bought a video game too.

Jaxo - August 31, 2016, 11:00 am

The first physical thing I bought other than food was this beauty.

My very first job was working at McDonalds, so my very first pay check I ever had was spent on a bunch of 50% off food at McDonalds. Yep gave them a bunch of their money back.
