I like your vector work buddy! Keep up the good work! Especially the interlocking "Zip teeth pattern" that you used for the sky! What would you call that technique?

Ow, thank you very much!

I don't know if there's a name for it, haha.  
It can easily be done using rounded rectangles

Yeah it really lends to the style! Nice job! I've seen it elsewhere I was just wondering if it had a specific name.

Thanks for your reply!

Looks pretty nice, never tried flat illustrations like that before, I should start soon.

Really nice illustration, I like it.

The noise makes it look really nice.

Nice work as always! Not sure though, but I feel like something is missing. It may just be because the right side of the circle looks a bit empty compared to the rest. Maybe a cloud or something?

If this was just slightly bigger I'd make it my wallpaper.

Thank you! Yeah, you could be right, upon finishing I kinda rushed to get it done, and fucked it up a little :c
