Thread: [If you could pick one users BTC account / wallet too own - Which user would you pick?](#)

So lets clear it up as the title might sound a bit weird and not really clear.

So lets say you could pick anyone's BTC Address / Account from a member on this forum to login to and when you login.....

all the money on the account is yours.

You can only pick one member and you have no clue how much balance the user has in his/hers wallet.

Which member would you choose?

Account I would pick: [Bull™'s](#) BTC Account

Reason: Because i'm pretty sure his wallet is pretty tight.

▯ Code if you wanna use - No need to :) ▯

Account I would pick: mine

Reason: because my wallet is pretty tight

minimalist - August 31, 2016, 3:35 pm

Either nokia2mon2's wallet, Bull's, or Omniscient's (if he counts as a user). This seems like a pretty targeted thing though.

Didn't even think about nokia2mon2 lol.

But I shall keep my final answer. :)

SubjectTrek - August 31, 2016, 3:37 pm

The user who owns the YouTube channel TrapNation. Forgot his name on here, could someone let me know it? An 8.5mil subbed channel definitely brings in the big bucks.

Ratt - August 31, 2016, 3:37 pm

I'd slide into Omni's, probably beautiful.

Riyu - August 31, 2016, 3:39 pm

Account I would pick: mark Leonardo

Knucklez. - August 31, 2016, 3:47 pm

Don Vasquez

He stated he has 10,000 - 20,000 BTC.

<https://hackforums.net/showthread.php?tid=5361675>

I may be disappointed.

Pew ? - August 31, 2016, 3:49 pm

I guess when you scam as much as Bull you'll have a lot of coin.

Faith Connors - August 31, 2016, 3:55 pm

I like mine but it has about 3\$ in it.

Nokia2mon2 or Vasquez are probably the richest here.
