I am trying really hard the past few days to get a few sales. I have over 10k hops already and no sales.

how am i suppose to get a sale ? I just started advertising on Bing Ads i really hope that i get at least a sale to break even.

Getting really frustrated how other guys do it and get easy sales like there is no tomorrow and i am here sitting on 10k hops not even clicking the Checkout button at all.

You need to convince people to click the button, that's obvious.

If you're bad at convincing then this business is not for you.

Why the hell would you use Bing Ads instead of Solo Ads though.

you are getting 10k visits to your site daily and 0 sales?

With Solo Ads I usually have a optin on 50%+ and 2-3 sales per 100 clicks.
