\*YOU CAN ONLY ENTER TO WIN 1 PRODUCT VIDEO OR THREAD DESIGN\*

My name is Nolan "DREAM" and I am the owner of Our Night Falls and the marketing service Dream Works. Pretty much as the title says, I am giving away 3 product videos for 3 products/services here on Hack Forums!

I want to bring some awareness of [my marketing/graphics service](#) here to the community, and how I put quality into [my work](#) c:

IF you would like to get a FREE HQ Product video by me, please use the following application format below, and post it here on the thread! I will send a PM to the 3 people that I pick to receive a free product video.

Code Product Name:

Sales Thread Link:

Why should you get a free product video?:

If you would like a FREE thread design (STATIC, NOT ANIMATED) then you will fill out this application instead. Thanks!

Why should you get a free thread design?:

Once again this is just to raise awareness of my service, and to give back to the community. I think creating a more professional marketplace should do just fine c: Anyways, good luck to those who enter! I will be checking entrance results all throughout the night. I will select winners based on their application. I understand if it may be hard thinking of a reason why you should get a free Product Video of GFX Design, but if you really want it, just tell me how much you want it! I will be happy to oblige c:

Product Name: Maplestory VIP Power Lv Services.

Sales Thread Link: <https://www.gamekiller.net/threads/affordable-cheap-power-lv-ms.3245965/>

It's on a different website and idk if it's viewable for you.

Why should you get a free product video?: Well i started creating trainer's recently for maplestory. I have 2 trainer's right now. Reg & VIP. I also have my own bypass. I really need this to get my sales started.

Currently have about 34 sales. I need alot more to even get started with my business. It's not much to do but a quick minute video.

Thanks a lot. Hope I win <3

Product Name: AmpNode

Sales Thread Link: Not currently sponsoring a sales thread (

<https://hackforums.net/showthread.php?tid=5359399>)

Why should you get a free product video?: I would like to have a video done for ampnod spoofing servers to help bring awareness to the site and to help promote the product. It's widely known as the #1 site for spoofing servers and the more attention that can be brought the better the products can be. A video would be a great asset and another form of advertising.
