Thread: [The Internet Marketing Masterclub \[The Place For Marketers To Discuss \]](#)

Tylers The Name - September 1, 2016, 6:18 pm

About

The Internet Marketing master club is a no bullshit internet marketing group. We're mainly based on Skype but I have plans for the future to expand it as our network grows. We talk about social media marketing, SEO, lead magnets, B2B marketing, sales writing, web development, email marketing and more.

Benefits

Talk Strategy/Techniques

Find others to work with

Talk to others who share the same passion as you, making sales!

Talk about the latest developments in the industry

Requirements

We're not expecting you to own some some business worth a million bucks but we have some basic requirements. They're best for everyone so really make sure that you meet all of them to decide if this group is for you.

1. This isn't a get rich quick secret method group, those don't exist. We talk about actual internet marketing if you're looking for a secret button to make you \$100 a day, this group isn't for you.
2. If you're going to ask questions contribute, I and others are happy to help other members out and share our knowledge but try to be helpful, friendly and supportive to other members as well!
3. Have an area of expertise - I don't expect you to be an expert but I like to generally see people with a skill in something already. We already have social media marketers, web developers and e-commerce owners and the more people we have from different areas the more we can all grow.
4. Be respectful and friendly - I notice some members on here are negative to others. I am someone who tries to be nice to everyone, nobody deserves to be put down or told that there websites shitty or any of that. We all have to start somewhere and if you're going to criticize someone do it in a way that will help them and be nice and constructive about it.

P.S Nobody with any open scam reports is permitted in this group.

Application

If you've made it this far I'm guessing you like what you see. If you think you'd like to be apart of the Internet marketing masterclub just fill out the application and I'll most likely accept you.

Name: BanditDev

Age: 22

Country: US

Your Experience (any businesses you run, skills, etc): I have ran and operated multiple online businesses such as a clothing brand, decal / car apparel store, as well as a pet store which was grossing over 30k per month. I have a bachelors degree in Web design/Graphic design and Marketing. I know run my own digital agency managing 34 clients offering web design (with e-commerce), email marketing, social media management as well as search engine optimization.

What would you say your strongest skill is and why?: If I had to pick which skills are my strongest, it would have to be web design and social media management. Since graduating college a year ago I have created over 80 different websites for all different kinds of businesses. I currently manage and update 32 Facebook / Instagram / Twitter accounts for clients daily, while seeing improvement in engagement with current followers as well as gaining followers. If you have any more questions please feel free to PM me.
