Thread: [\[Tutorial\] Make a simple Sync with sony vegas.](#)

Lufasu - September 2, 2016, 2:14 pm

This guide is for newbies .

On this guide i gonna teach you how to make 'Sync' with sony vegas.

To the people who dont know what sync is it -

'Sync its when you are mixing the music with the shots / pics / anything that will go well with your beat .'

So lets start...

First of all , there is alot of ways to sync -

Sony vegas simple sync (the tutorial based)

Velocity sync

Twixtor sync

We gonna talk about the 'Simple' sony vegas sync (videos of the other ones will be added , beacuse its not easy to explain those).

So , first of all ... You need a -

- 1.Clip of your frag movie
- 2.Sony vegas program (can be downloaded by google search).
- 3.Music with some cool drop / beats on it .

Examples (taken from NCS - NoCopyRightSounds , to avoid any copyrights deletion).

Quote:<https://www.youtube.com/watch?v=6CQHm0jvgkw>

<https://www.youtube.com/watch?v=8uSx3DyJjk0>

<https://www.youtube.com/watch?v=jK2aIUmdP4>

<https://www.youtube.com/watch?v=8uSx3DyJjk0>

So , go to your sony vegas and put there the music + clip.

After doing that , play your clip and find the shot/kill part.

(you can use your keyboard arrows to do it slowly and find the best part).

when you find it , stop the clip on the shot (must be exact!) .

After you stop on it , click 'S' and its gonna cut the part and delete the rest.

Now the music part , on the music do the same thing with the arrows , find the 'Beat' part and when the beat drops and you stop it exact on the drop you should press 'M' and its gonna mark the beat drop -

(the orange is the mark!).

After doing that you're almost done... - Take your clip (with the shoot/kill) and drag it to the orange link ..

Or in simple words - Take the shoot/kill part and drag it to the beat drop mark.

After doing that, play your clip and you gonna see the sync .

Congratulations ! you made your first sync !

Example -

[Video: https://www.youtube.com/watch?v=jzC2FsS_MLw]

(starting shoot).

Addontial sync (if you want it smooth and learn from now) -

<https://www.youtube.com/watch?v=FZ7izw1r0WQ> - Velocity sync

<https://www.youtube.com/watch?v=ZrKQFqbpY84> - Twixtor sync

(Those are tutorials)!

I hope i helped you guys :) , If you have any question , feel free to ask me !

I know i have some grammar problems , im working on it.

Great tutorial, this will come in handy for myself. Thanks for taking the time to share this.

?BORNE? - September 4, 2016, 6:53 am

Brilliant tutorial

I have sync video on my channel www.youtube.com/borneplayss
