Thread: [Bezo - EXCHANGE AND UPGRADE SERVICE >> BTC | PP | Interac | LOTS OF VOUCHES <<](#)

Bezo - September 2, 2016, 4:18 pm

All rates will now use BLOCKCHAIN as their standard.

Minimum exchange value is still \$20 worth of BTC, any less and the fee is a flat \$3 USD.

Before you even contact me, I DO NOT GO FIRST, I will use a MM though at your expense

BTC Stock: \$135

Does not include amount for upgrades, feel free to contact me.

Buying BTC? Click Here! [\(Click to View\)](#)

What are you using?Paypal :: 15% rate

Interac :: 9% rate

If you are using paypal, keep in mind:

Paypal must be fully verified, be prepared to show proof is asked

No open deal disputes/no valid dispute history

Positive reputation regarding exchanges, I don't care about the random +'s

Must have done other deals within 2 weeks

Must not have matching members with your IP (trust scan)

2FA must be enabled for at least a month (not too enforced)

I do not deal with new users, especially within 2017, you are free to contact me, but no guarantees that I will even respond.

I will judge if I will deal with your account, if I don't deem it trusted enough, I will not deal with you even if you have met the other rules/standards above.

If you are using Interac, keep in mind:You will be going first, I will not send BTC until the funds are in my bank

Regarding fees:I do not pay extra BTC fees, if you want higher fees, you pay more. Otherwise, I simply send the minimum (~\$0.16-0.20)

If you pay as goods and services, I handle the fee, making the deal 12% for me via PP.

Make sure to pay attention to the instructions I send as they change from time to time.

If you have read and understood the above, use the following to PM me.

My payment methods:Paypal :: 1 for 1

Interac :: 1 for 1

Selling BTC to me is simple.You send me the BTC

I send you your money

I can use a MM, but at your expense if there are any fees.

If you've dealt with me, you know I send most of the times right after I receive the BTC

If you have read and understood the above, use the following to PM me.

no idea didn't know I had matching ip's with anyone. Does it say who it matches with? IpVanish Kjevik norway was unblocked on my vpn and I accidentally connected with that multiple times (just recently it's been blocked). and I also connect at school every day. I've connected at local coffee shops as well. Matching ip doesn't automatically mean someone is a multi. I understand your concern though. I've done multiple deals with staid and neat. They're offline so I just went to the next person on the list. If you don't want to deal with me that's okay someone else will just make that 15% profit off of me.
