I watched Sakamoto and it was great. So many of those corny joke scenes that you can't help, but laugh at. Many say that there's a deeper meaning behind the plot that's pretty dark, but who knows.

It's as hilarious as Nichijou. No joke. Same sort of comedy and executed just as well

RainbowHentAi - September 3, 2016, 11:40 pm

For such a simple show, it's amazingly good

I though we already had a thread on this.

I started watching it a couple nights ago and it's pretty fucking hilarious.

I almost might have to agree. But I do like Nichijou more because it has more characters I like.

Hi I'm Agreeable - September 11, 2016, 5:14 pm

Finished it today, amazing show would recommend.

I would give it an 8/10 :).

grady - September 11, 2016, 6:57 pm

It's actually fucking hilarious.

I watched the first few episodes when they were originally aired, laughed my ass off, but past that didn't keep up with it.

It's something I'll go back to after a while, not really the type of thing I'd watch consistently.
