Thread: [UnFinished project !!!](#)

merso - September 3, 2016, 6:13 am

hey guys ive got one unfinished project and id like to finish him.first off all the i know a little bit of C# so i would appreciated any help.the project need only couple of functions to be done.any sugestions any kind of help will be kind for me.if you wana to help me paste a skype ID and i will add you ASAP.?

CancerNut - September 3, 2016, 9:45 am

what kind of project? Pm me some more details please

Sakuto - September 5, 2016, 5:59 am

Specify your request and your problem or just hire someone, but actually this is not an help request.

Amaa - September 5, 2016, 8:43 am

Depens on what kind, i might be able to help.

merso - September 9, 2016, 9:09 am

Bumb bump still need this guys..but i would like to say thanks to <https://hackforums.net/member.php?action=profile&uid=2919508> on his big help related on this project

Sorry for gravediging my tread..

Ninja - September 9, 2016, 10:58 am

You cant just say you need help. You post the problem here including source code and then explain us what goes wrong and on what line and we will try to find and solve the problem for you.
