Thread: [\[50% OFF\] Start your own cracker! Cracker source with 30+ Modules!](#)

LUCKYMR7 - September 3, 2016, 11:10 am

How is everyone doing I am selling the source to my project here :

<https://hackforums.net/showthread.php?tid=5385437>

Has 30+ Modules, Proxy Checker + Scraper, and other tools.

I currently use NetSeal so you'd just have to edit the program code since it is already implemented in the source.

For full module list please pm me.

Price is \$200 \$100 BTC

Purchase : <https://rocketr.net/buy/cbcef02bf792>

Any reason for not continuing? Could you show some sales of the past month? How would we go about updating the sites, will you provide lifetime support?

I just dont have as much time as I would life for HF right now since I am taking 18 credit hours per semester to finish up college. You will need to hire someone to update the program for you. I provide you a working source but that is all.
