User attempting recovery of main account:

Temp accounts are only supposed to be used for recovery, and are supposed to have _temp if I recall right.

Someone correct me if I'm wrong. ?

i agree their only for recovery but i can't get into email till 2nd when my 2step is lifted by hotmail, as i lost my phone due to issues with police. i discussed this with omniscient via email and he can't do anything as my IP is dynamic and can't prove email as locked out of it till "22nd"...

Then why are you creating new threads, and hosting giveaways if they're to be used for "Recovery only"? That means you should have stopped at the first thread, used _temp, and waiting for a reply if I recall site policy correctly.
