Thread: [USD / JPY bearish - My investment today](#)

xxrangexx - September 4, 2016, 4:30 pm

Hello everyone,

I'm trying to become a forex day trader and currently doing a ton of research and learning, I have done my first Forex entry to do in a bearish USD / JPY market.

Current trend :

Spoiler [\(Click to View\)](#)

Let me know what you think.

Let me know what you think.

Should post your analysis on why you entered then and what you expect to happen etc.

After my research last night, I came to the conclusion it's going to hit the 102.8 support, break high resistance and go 105 @ Wednesday..

Good luck with your positions though!
