Thread: [BTC Price ticker for your content](#)

**My [/b]** - September 7, 2016, 10:11 am

Hello there guys!

I was playing around a bit with PHP and decided to make a price ticker you can put in your content (discussions, sales)!

Price updates on refresh.

If you guys like it, I might try to make one for another cryptocurrency.

Code [align=center][img]http://opiniebandaag.be/createimage.php[/img][[/align]

Result:

[img]http://opiniebandaag.be/createimage.php[/img]

Enjoy! ?

Pretty dope, good job fam

**Soulmate~??** - September 7, 2016, 1:06 pm

Great job, but I think dynamic images like this were banned on HF a long time ago.

Are we allowed dynamic sigs such as counters or image rotators?

No. You're not allowed to use dynamic sigs on HF. They can be abused and normally slow the loading of pages. So we ask that you do not use dynamic images in your sig. This rule also applies to avatars.

I find it very cool, but I will not use it on HF because I am afraid of that it would be considered as a dynamic signature. Still, we could use it on other sites so I find it helpful. Good job!

Ahh, I'll rewrite the thread and remove it from my signature.

Still could be great to add to a BTC-discussion thread/sales thread/.. ?
