Thread: [C# GUI Theme](#)

Phoenix_101VB.NET_DUDE - September 8, 2016, 12:48 am

Well hello everyone I'm quite new to hackforums really new tbh
I've started programming in C# and I don't want the shitty gui it has
if anyone could link me to a forum to a C# gui I would really appreciate it =)
Well I hope all of you have a great day. =D

nD_wuT - September 8, 2016, 2:24 am

go to youtube > type "c# gui theme" there wil lbe lot of results there like aeonhack

i can't post links yet (but you can google using keywords "c# gui hackforums")

SUPER TRIGGERED
You can do wonders with the standard controls.

Phoenix_101VB.NET_DUDE - September 11, 2016, 9:39 pm

I know but I rather have shit like this...

https
://cdn.discordapp.com/attachments/216471336388788226/224750732987858944/unknown.png
?

Lol "*SUPER TRIGGERED*"

Ahh

Sorry I didn't know

I could but I'm too busy making other shit

and people on hackforums know's quite a bit so I wanted to save some time and asked for some help.
