Thread: [\[Tutorial\] DayZ Standalone .60 - UNLIMITED SALINE / MORPHINE / EPINEPHRINE GLITCH](#)

Darb - September 8, 2016, 3:29 am

Welcome to the infinite Saline / morphine / epinephrine glitch!

This is an old but gold and still working glitch for DayZ Standalone 0.60.

Latest working proof: 0.60.133913

Okay! Let's get started.

The glitch is very easy to use and works with saline, morphine and epinephrine.

How does it work?

Put the saline bag in your hands and start injecting yourself or any other player. in the beginning of the animation, just simply remove the saline from your hands and put it back in your inventory or put it on the ground. Just remove the saline bag from your hands, with pressing the red X. That's it! Your saline will not be consumed. You can not get banned for using this glitch.

Thank you very much for watching this thread!

I'm going to make some more tutorials for glitches in DayZ very soon.
I made this tutorial because it doesn't exists here on HF :)

I can confirm this works.

Biker BoyZ - September 9, 2016, 3:46 am

Nice find bud. have not played this game since dean left. have they optimized it yet? like fixed the lag?

Good kid mad city - September 9, 2016, 3:46 am

Great start bro, please stay hq

Also can you recommend any dayz cheat?

Yes. The game got a new render and the performance got a boost. But it's still DayZ. I play it very often. Watch out for new Tutorials tomorrow.

Great that you guys like it! :)

Also can you recommend any dayz cheat?

Actually not. Battleeye is very fast with finding it out. I don't recommend currently cheats/hacks.
