Here you go bud

Looks pretty nice mate, the text doesn't really fit in too too well, but that can be worked on

Keep it up :)

yeah man shoot me a pm details

fireguy722 - September 12, 2016, 10:00 am

I like it! but the text stands out as said before.

dowit - September 13, 2016, 1:03 pm

nice but i suggest to change the font :) then it will be awesome

SIM-403479 - September 13, 2016, 1:07 pm

Looks good except the text. Nice work.

Mind Glowing - September 13, 2016, 4:26 pm

An important thing to keep in mind is the use of high quality resources.

Maybe you haven't noticed, but the Spiderman itself is quite blurry.

Starting with the right resources is a game changer.

Classic™ - September 13, 2016, 4:28 pm

I really like it.

Nice job man.

klap - September 13, 2016, 4:35 pm

Great job, lookin really dark and mysteriuos. Hero Spide fight with himself. Symbiot was his greater enemy. Like it.

?ane - September 14, 2016, 12:45 am

It's nice, and the color scheme goes well with it. But I feel you could have tried harder.

Adob? - September 14, 2016, 5:54 am

This looks really nice man! I love how the background matches, maybe try and incorporate the text in a little bit better but other than that looks great!

2073436 - September 14, 2016, 5:54 am

Make the text white and use a bold font.

Add some little effects to the text too.

It should look better, good luck!

novagenic1 - September 14, 2016, 6:02 am

Nice man i like it, looks clean

CODE GFX - September 14, 2016, 8:02 pm

Good job mate. chnage text font & colour.

Fidel Castro - September 15, 2016, 7:43 am

Try to change a little the text size and effects outter on it.

But i really love it, that red'ish background is dope.

Keep the good work there.
