Thread: [Would You Rather Be a CIA Assassin or a Rouge Assassin](#)

Clint Beastwood - September 9, 2016, 10:07 am

So lets say you grew up with no parents, got bullied and wanted to take that anger out by killing people would you rather work for the CIA as a field agent [Assassin] or a Rouge assassin where you do jobs for rich drugs lords/rich people.

CIA:

pay isnt amazing
always being watched
if you make a mistake they could kill you dependant on how bad it is
you dont choose the job
very stable
great benefits

Rouge:

pay would probably be a bit better
you only look after yourself and you're not being watched 24/7
if you make a mistake you can just disappear
you choose to take the job or not
person who hired you could set a hit on you and you cant tell the police
if something goes wrong you have noone to turn to

serious responses only.

If you got such an amazing past. No one to flaunt your CIA job to. And both jobs need me to kill innocents (or not). Go rouge.

I'd choose Rogue but I don't think your description is necessarily accurate.

GEEG - September 9, 2016, 10:10 am

I was going to say CIA, but you make it seem so bad lol, I was expecting a license to kill and being above the law

FractumSeraph - September 9, 2016, 10:11 am

You description makes rogue sound better, but I dunno.
Seems to me like CIA would pay more and get hella benefits.

Checkmark - September 9, 2016, 10:12 am

umm... rouge obviously... you just described how it was better...

very just off the top of my head. Very bad things come to both and very good to both too

Yeah I'm gonna go with CIA. I don't really think you listed all the benefits/drawbacks. Depending on what your position is in the CIA I'm guessing you get access to more shit etc. When you're rogue though wouldn't they be hunting your or something? Dunno, CIA seems safer and cooler.

I dont think field agents/assassins get paid that much, benefits are probably good tho

cia are psychopaths in suits lol, they'd probably let you eat the guy ok not eat him but as long as the asset is dead they dont care

I'd go for a rogue assassin, since i can use stealth easily + reking final blow, thats done for it.
but... your description of them both is kinda strange.
