Thread: [Logo Needed for my Unique Project \[Car Related\]](#)

?Businessman™ - September 9, 2016, 12:47 pm

Hey guys, I've come across a really good idea recently and I want to start piecing some parts of my BETA website together [Paid £15,000 so far for development] I already have a theme and I can edit colors etc myself. But I need the some images created and if I could, get the base file for it.

This is an "On-Going" and very high potential project and I'm going to need to hire a graphics designer somewhere along the line, If you're very good at what you do, I'm going to need a successful candidate to create all of my other imagery, so I need to hire somebody flexible creative and outside the box thinking with their designs.

The best artists here will receive the opportunity to become of a part of the project and earn a lot of money potentially, so all efforts and submission are considered and all details are taken for future references.

The name is: CarSceneNetwork, "CSN" (I'm going to need graphics designed for both, one can be for avatars and logo's and the Longer version for Header images etc. Or if you can fit the entire wording for a avatar that would also be great.

Here's our small description: "The UK's LARGEST Social Media Network for Local Car Enthusiasts, Events, Automotive Services Industry/Trade, Clubs, Forums & Pages!"

So I'm looking for 2 types of logo's in Mind,

Also if you also could I am in a really big need of a facebook header to go with the logo etc!
Abbreviated name: CSN" It's themed on the "Social media networking" "Modded Car Scene" and the "automotive industry & trade" so I would really like a logo themed on those base elements.

And then for the actual brand name "CarSceneNetwork" for the homepage etc, I'm looking for that to also keep the car theme to it and include car related objects and images embedded cleanly into the name.

Also because it's "Car Scene" "Network" I would also like some representation of the "Network" theme inside of the logos also.

Thanks for reading and taking an interest, If you could post your result below or send them in a PM to me, that would be really appreciated!

I will try my very best to compensate for any of your time!

Kind Regards,
Businessman.

GL!

Thanks a lot bud, I've made many products in my past and out of all of them, This one is the one. I can feel it, I have a lot of hope and faith in this one. Very good Niche. The best artists here will receive the opportunity to become of a part of the project and earn a lot of money potentially, so all efforts and submission are considered and all details are taken for future references.

Still looking for a helping hand with the logo! please help

Hey I've repped you for you efforts but it's not what I'm looking for sadly, I need things that represent social media networking and directory.
