Have sent you a vouch copy.

Looking forward to your review.

First of all i want to thank Tho for giving out this vouch copy to me.

Here is my honest review, i am in no way affiliated with this ebook or the seller.

Originality: 8/10

The methods that is included within this eBook are known, however the way this ebook explains it, is simply amazing.

The ebook is loaded with details.

This is NOT saturateable at all! and anybody can do this.

It will take you some time to set it all up (not more then a hour if you start actively.), but i strongly believe that the pay out will blow your mind.

You get 10 pages of info, and every page includes either a crucial detail or a trick to make your profit grow.

Grammar: 10/10

Nothing to say about this.

Ease of Use: 8/10

The methods itself is i'd say are easy to set up with the amount of explanation Tho gives you, so that the average computer skilled person can do this!

You're reading this so you know how to use a computer so you WILL be able to do this.

Plus these methods are working everywhere so not only can anybody use these methods but they can use it anywhere they are.

With this method being so widescale to use also comes how good the earnings are as well after you've put in some work!

So if you are looking for a good solid method that actually works and will earn you back your money and more this is the eBook for you!

Layout/Design: 8/10

The eBook layout is simple and a big font is used, but it's nothing to bitch about.

With this layout he designed it in the way that it is a step by step guide, so all you have to do is read exactly what it tells you to do and then you will start earning, it's as easy as that!

The eBook layout is perfect for all people so anybody can read it and understand what it is asking you to do.

Overall: 8,5/10

I am giving this eBook an high rating of 8,5/10 for one main reason.

I know eBooks have a bad reputation because most of them end up promising extremely insane results that never happen for the buyers.

But this one is different!

So overall if you are just looking to make some good money that you will earn by working, then this is the ebook for you!

Great eBook and a great method that actually seems to work for once!

I will post proof as soon as i start setting this up and start earning!

I've set up around everything in the ebook, now it's just a waiting game, will update in a few days.

Regards,

Saint.

Nonsense, every one of the methods included can be saturated and several are already very much.

Nothing original, but people who haven't looked into any sort of ewhoring or ptc/ppd could probably benefit from reading it. Not saying it won't work, I know plenty of people who make money with these exact methods and many similar. I just didn't see any material that I haven't seen elsewhere for free.

Thanks for the read OP.

edit: I don't think OP claimed it to have any original content, I just figured I'd state that for anyone with experience to save them money. This is a small compilation of working methods that are cheap and free elsewhere, especially when purchased individually. That said it's sure to deliver some extra spending money to people willing to put time in. Good luck on earnings.

Cold Hearted - September 11, 2016, 12:33 am

Thanks for the reply, Although i went into detail with this guide which many people do not do. I think its important to have every bit of detail or else you wont earn the full amount you're capable of earning. I also give personal methods which work best for me, and have earned me my total amounts.

It's not by any means a low quality book, it has more than enough attention to detail and simple instruction. I've seen better and I've seen much worse. If I happened to purchase this from you and hadn't seen any of the stuff before, I wouldn't be disappointed with it. Just letting experienced marketers/ewhores know it isn't a holy grail or anything (:
