<http://www.filedropper.com/savagedoxing>

Comes with "advanced" copy too. I am not offering the support on it though.

Free to do what you like with. I have read it myself now and is pretty garbage but still the most you will get from any paid ebook on doxing sold here on HF.

Will probably edit it later on and give it away again.

User has kindly chunked it in a hastebin for anyone who wants to listen to Sifts absurd claims

The fact that you bought this and straight up gave it away rather than trying to earn some money off it is amazing. Thanks for this Mr. Robot.

Wow for real? You gonna play that game.

Scan the fucking things, check the data and post back. Don't go to peoples threads when they are tryna help people out and talk shit.

The worst part is, this shitty ebook I bought to giveaway contains everything yours does. And yes I have read the newest update.

Rezy - September 10, 2016, 7:03 am

Can't wait for this to go onto the marketplace with a different name by a different user.

You're calling something you spent money on and are giving away "Shitty", now that's low.

Yes it is shitty. Hence why I bought it to give away - otherwise some other user would have bought it and had it back on the market within an hour.

Lord_Jesus - September 10, 2016, 7:22 am

Not a lot of people has my respect, you had it since day one. Happy I'm not wrong about you!)

How do you know it's shitty? On your main post you stated:

"I haven't even read it myself yet but will at some point. "

<http://prntscr.com/cgeafn>

Or are you just judging a book by its cover.

People just can't appreciate free shit - it's all the jealous dox ebook sellers or services here on HF.

Thought I was down with the cool kids on how doxing works but apparently not.

I feel both side ahah, because for them, it's an indirect sale trash, as people obv will take this free product instead of buying it from them if they were interested in getting it.

Agonises - September 10, 2016, 7:42 am

I'm not here complaining lol. You're offering something that you stated you didn't read and called "shitty".

Dude I am already broke as fuck, I would have loved to keep that \$20. It's cool though, better my \$20 gets downloaded and read by 100 people than giving away \$2-3 to 4-10 people or getting a packet of smokes.

I have fixed it but as I said, I only just called it shitty in the last hour but posted the thread 12+ hours ago. Since then I have read it.

Toby Flenderson - September 10, 2016, 7:54 am

Thanks, Mr. Robot! I appreciate you going out of your way to do this!

?Zero - September 10, 2016, 8:10 am

Thanks, Mr. Robot, got no need for this at the moment, but just wanted to say thanks, I feel like people will use this as an example to get back at the big ebook sellers, instead of actually just been thankful for your giveaway, but in the end is always a big fight i'd stay out of.

Reminds me of the lamborghini guy from the ad, anyways just wondering, what happened to your warning lvl? o.0

Silent Uprising - September 10, 2016, 9:35 am

Reading through the comments and I see a lot of hate. Why is everyone so mad that he is giving an e book...that he paid for and straight up game away. I don't see anything in it for him besides helping the community? He gained nothing for this, and from what I see...he tried helping HF out. Your all ungrateful shits. I am not a gay dick rider fuck mr. Robot. But he is helping so stop hating guys...

zeaur - September 10, 2016, 5:20 pm

Can't believe you would come to my thread and accuse me of trying to infect people with a completely free and non infected file.

Disgusting.
