Disgusting for people to act in such a manner, hopefully he gets closed.

AllAlone - September 10, 2016, 12:44 pm

User scammed me \$200BTC as well. RIP to me

Gary - September 10, 2016, 12:44 pm

lol, never really talked to the kid but sad to see he sold his account.

Hamekaze - September 10, 2016, 12:44 pm

User contacted me regarding changing IPs, I highly doubt he sold his account. I bet he wants to multi again.

It's believable according to the trust scan, hopefully members will take notice of this and don't deal.

Cammy - September 10, 2016, 12:48 pm

I don't know which Reddington he's been talking to but I'd deal with caution with any and all of them.

This is valid, I have been watching all this in the group chat on skype. I hate seeing people exit scam, there is no need for this.

He's scammed a user for \$220 BTC in a CE, so he's made it back and quite a bit more. RIP.

Undefined - September 10, 2016, 1:00 pm

I guess the guy who really got scammed here is the buyer who paid \$200 for that piece of shit.

Lord_Jesus - September 10, 2016, 4:48 pm

Nah he just went on a scamming spree. When he talks about what he paid for means the upgrade and such.

Comic Books - September 10, 2016, 4:48 pm

If he is a scammer, he isnt a smart one. Hes blatantly telling everyones what his plans are. Sad thing is tho even if we ban him on here someone will probably already have added him somewhere else and get scammed.

I am almost 100% sure this is the case. And he keeps denying his real name.

Not surprised he sold it/is the original owner scammer
All he did was beg to me on Skype to buy his junk products or GFX.

Yes when I spoke to him over Skype he kept on diverting and comparing himself to Regulus' account saying that "I'm not Ra*****, I bought Endire's account just like Regulus sold his"
It's obvious it's him.

Is this a new ebook market - buy HF accounts and scam? I've never seen this so rampant until recently, maybe it happened the same amount and people were more gullible/clueless back then but fuck. Surprised at how much they're selling for as well.

I know some members were offered \$3,000-10,000+ for their accounts. All of them refused the offers of course.

The persons account is literally not even a month old, how would anyone deal with them first.. Also the person didn't need to sell it they could have just scammed and been a multi the entire time.. Was this someone else who had there account merged? If it's not I don't understand all the commotion of this thread.

He said he is behind Regulus too. That's how he has access to both his hf and skype.
