I fucking hate this monkey.

I am not racist.

But this dude is the definition of a monkey.

He couldn't be any dumber and I absolutely hate that this moron is successful in anyway.

He should just be another statistic. Black kid from a bad neighborhood in new york in prison before 18.

?ndrew - September 10, 2016, 4:57 pm

Kind of racist calling him a money bruh

Why do you hate that someone else is successful?

I've never hated anybody for success in fact when I see successful people instead of being Jealous or whatever I use them as aspiration/inspiration.

But this guy is the epitome of everything I hate as human being.

He's one of the most uneducated stupid fucks you could imagine.

If he wasn't famous he'd be selling pills/in gangs/all the other shit blacks from bedstuy do..

He'd be walking around with his pants to his knees with his friends causing trouble everywhere they go..

You'd avoid them if you saw them on the street cause they're just ignorant trouble

You seem real fucking upset.. Must be black or a feminist

How much debt did your Poli Sci/Gender studies degree cost?

I'm not fucking racist.

Because when I meet a black person I do not treat them differently than if they were white. I treat everybody equal.

But when a Black person asks like a N word.. They're a fucking N word.

Bro, if you don't think your racist for the things you just said, you are ignorant... Please educate yourself. If someone annoys you that much, you feel the need to make a thread and they don't even know you personally. You have no life plus you're jealous!!!

sounds like Trump calling all Mexican rapist, drug dealer, and criminals.

You can't be happy for a dude (or a monkey, as you declare him) who broke past bigoted NY stereotypes to become more famous than you'll ever be?

If you lived in those parts of NY or other similar projects, the stereotypes would be ingrained into your head. Theres no running from them, but it sounds like you're just out to vilify a culture that's all about reaching for new highs from incredible lows ?.

You are obviously a bigot white teenager based off the context of your post.

No ones "really made" we're just weeding out the degenerates on this forum such as your self. ?

You are what's wrong with the world. Life will straighten you out soon enough I'm sure. ?

He's only 19. Best case scenario would be a revelation that takes him out of the heart of the scene. Worst case scenario would be a dead Designer. Either way, he's no worse than all of the other rappers who've beefed with other rappers.
