Thread: [any open source account creator?](#)

nD_wuT - September 10, 2016, 9:58 pm

im planning to make a c# program pokemon go mass account creator.

is there any opens source account creator there? it's my first time so i need to base some ideas there. it doesn't need to be pokemon go creator.

Learn how to use Fiddler and how to send webrequests and maintain sessions. Then you just sniff the registration packets using Fiddler and you are good to go.

Came here for that post :'D

Thanks Dude
