Requirements

- No Valid Deal Disputes.
- Any current warning levels will be checked
- You must have experience with crypto currency

Application

This sector is very exclusive. I will not accept anyone with a application that is poorly prepared. Be elaborate with your application and as detailed as possible.

Code Age:
Time Zone:
Your skills:
Experience with Crypto Currency (be elaborate):
Most Notable Crypto Currency Achievements:
Any additional notes:

boost - September 11, 2016, 11:05 pm

Age: 20
Time Zone: PST
Your skills: Social media marketing
Experience with Crypto Currency (be elaborate): I've been dealing heavily dealing with crypto currencies for a few months now. I've profited a decent amount from my experience and currently have have some assets I plan on hanging onto long term.
What can you contribute to Nightmare's Underworld?: My knowledge of crypto and other skills I have.
Most Notable Crypto Currency Achievements: Profiting a big amount from investing into crypto's then selling it and being able to use the profits to invest into more.
Any additional notes: Hoping I can learn more about crypto currencies and also share my knowledge.

?Optimal - September 11, 2016, 11:23 pm

Age: 17
Time Zone: EST
Your skills: Marketing and being the top in my niche
Experience with Crypto Currency (be elaborate): Been into crypto-currencies for the past three years, most heavily involved in trade LTC for BTC and profiting.
What can you contribute to Nightmare's Underworld?: Methods on how to make hella racks.
Most Notable Crypto Currency Achievements: Achieved 4BTC from a \$20 investment into LTC.
Any additional notes: Hoping I can help others and once again be in such a great group.

thales - September 11, 2016, 11:26 pm

Your skills: Marketing and being the top in my niche

Experience with Crypto Currency (be elaborate): Been into crypto-currencies for the past three years, most heavily involved in trade LTC for BTC and profiting.

What can you contribute to Nightmare's Underworld?: Methods on how to make hella racks.

Most Notable Crypto Currency Achievements: Achieved 4BTC from a \$20 investment into LTC.

Any additional notes: Hoping I can help others and once again be in such a great group. You've qualified for a skype interview purely due to your claim of \$20 to 4BTC. I want to see some proof that you are this experience trading.

Sharjah - September 11, 2016, 11:35 pm

Age: 19

Time Zone: MST

Your skills: Marketing and Forum software issues

Experience with Crypto Currency (be elaborate): I have quite the experience and just recently launched a crypto-currency forum which even adds further to my knowledge

What can you contribute to Nightmare's Underworld?: Can't provide any methods due to the fact there are no methods to make money with cryptocurrency, but I can share my knowledge

Most Notable Crypto Currency Achievements: My successful exchange shop:

<https://hackforums.net/showthread.php?tid=4385352>

Any additional notes: Nope

m4dh4ck3r - September 12, 2016, 12:09 am

Age: 24

Time Zone: +5

What can you contribute to Nightmare's Underworld?:

When it comes to tools, I have a lot of experience with Exploit Kits, RATs, Botnets, DDoS.

I am also an experienced PHP developer.

How experienced are you in the field of Crypto Currency?:

Personally, I made a lot of money with Bitcoins when it went up to 1400\$.

I had a Bitcoin farm which I soon had to shut down because it became unprofitable.

<https://hackforums.net/showthread.php?tid=3334003>

Couldn't post any updates due to personal reasons.

Been trading bitcoins for local currency on local bitcoins for almost two years now.

Most Notable Achievements on HF:

A tutorial I made about hacking wifi networks.

I made this when I just joined hf .

<https://hackforums.net/showthread.php?tid=1467214>

Room Rat:

<https://hackforums.net/showthread.php?tid=3991892>

People had access to my room and were controlling it through a web panel.

It was a small project that I made with Raspberry Pi and Arduino.

Facebook Hacker:

<https://hackforums.net/showthread.php?tid=3827157>

This was a successful product but had to be shutdown cause Facebook closed the API.

Sparky Java:

This was the first product I sold on HF it had a lot of users and was probably the first Web Java Drive-by.

<https://hackforums.net/showthread.php?tid=1983453>

Any other comments:

I have been inactive on the forum for almost two years. Just started to get active might launch a few products/services soon.

Demonstrate - September 12, 2016, 12:30 am

Age: 19

Time Zone: Pacific Standard Time

Your skills:

I have many skills, some of which include my literary skills, experience with marketing, graphic design experience, computing knowledge and many more. The skills that I contain that would most likely be attributed to this group are my experiences with marketing and literary skills.

Experience with Crypto Currency (be elaborate):

I own a bitcoin wallet and I've done exchanges in the past. My goal in joining this group is not to build off of what I currently have, it's to build in general. I want to join Nightmare in order to grow and be a notable example of what this group can do to someone who has little-to-no experience with Crypto-Currency. If the group can dramatically change a member like this it will be sought after by many more members, as they will see that this change was not sudden, but may be credited to the hard work done by the group and its member to allow someone to learn and grow.

Most Notable Crypto Currency Achievements:

Creating a bitcoin wallet.

Any additional notes:

I am not a person who gives up. I strive to be the very best at everything that I do, big or small and I'm not one who leaves those who are on my side behind, I make sure that I bring them with me to ensure that I create as much mutual-benefit as possible. I will ensure that my transition from before the group to the time that I become an active member becomes inevitable.

ryan? - September 12, 2016, 12:35 am

?Enlightened - September 12, 2016, 1:11 am

Thank you all for your applications, keep em coming!

?ersace - September 12, 2016, 2:18 am

Age: 16

Time Zone: UTC 1:00

Spoken Language: Dutch, Spanish, and English.

About You / Interests / Any notable skills?:

I've been doing graphics design since around January; I always liked working with digital hardware and making art. I recently purchased Creative Cloud by Adobe to get the most out of my skills. I currently serve a free design service which can be found [here](#). With this service, I hope to bring people a smile on their face without having to pay them in currency. I do most of my work in Adobe Photoshop, and I am currently working my way up to Adobe After Effects and Adobe Muse. I am a huge fan of flat designs as that is trendy and catchy for the client's eye, that is why most of my created art is either Flat or 2D. I have done off-site work multiple times for free and hoped to bring my knowledge over to HF's users.

I like to play and watch sports most of my time besides sitting on the computer. I currently play soccer as well as rugby; both are team sports which mean I can work in a team but also for myself as I am doing in my graphical experience. I've been doing soccer for ten years and rugby for around four years now. Besides sports, I also like to hang out with friends and such. Were mostly going to movies, fun parks, cities, and much more.

I do game sometimes; it's not my main focus, but I can still fairly enjoy the art and storyline of a game. My favorite games are ARK, Uncharted and Watch Dogs. Uncharted and Watch Dogs are unplayable for me now because I don't have a Playstation available anymore. I do still play ARK sometimes but not as often as I used to play it. I am hyped for Battlefield because EA's storylines are always at it's best in the BF franchise. I sometimes enjoy the singleplayer more than the actual Multiplayer servers. I did play the B ta, and it was nice, but my PC can't handle High or even Medium, after L33T my main goals is to acquire a new gaming PC to process and handle designs faster and let games run smoothly and in ultra-realism.

Why do you wish to join Nightmare?: I would like to join Nightmare to expand and spread my knowledge about arts and sports to the rest of the community, I am also hoping to meet new friends and users who can teach me the advanced details within HackForums and around.

What type of group activities would you like to participate in? (Gaming, mentoring, learning, group projects, etc.): I'll mainly focus on learning and group projects.

Anything else you would like to include: I hope to meet some new friends within Nightmare to play games start business and talk about News and related topics.

?yden - September 12, 2016, 2:22 am

Fuck the title of this thread is so cringe.

Aliasllias - September 12, 2016, 2:27 am

Will update and make it look more fancy when I'm home

Age: 18

Time Zone: CET +1

Your skills: Manipulating people into buying something when I'm 1 on 1. Selling physical and virtual items.

Experience with Crypto Currency (be elaborate): I basically Buy&Sell BTC in a way I make profit from it.

Most Notable Crypto Currency Achievements: Earning 1 BTC when I started with nothing, was my first BTC.

Any additional notes: Nightmare has a sick userbar and the name is sick aswell, that's why I apply. Looking forward to contribute to Nightmare in the possible ways I can.

Louis Vos - September 13, 2016, 10:04 am

Hello, my name is Malik and I've been into investing into Crypto Currency's a lot. I'm 19 years old and live in Rotterdam (Amsterdam time zone). My skills are binary trading and also long-term trading, as in small companies. I'm making my living of this. I'm following Bitcoins since of 2014 (when they really grew up) untill now. Since then I'm investing into: Bitcoins, Litecoins, Ethereum and Monero (XMR). I think that the Monero has got a really good chance in becomming the next very big crypto currency next to Bitcoin, not only because it's anonymous, but also because it's mine-able (better than Bitcoins).

I wish everyone the best of luck and a nice day ;-)

Yore - September 13, 2016, 12:08 pm

Age: 18

Time Zone: GMT +2

Your skills: Marketing, graphic design, Instagram, Crypto Currency knowledge, and lots of other things.

Experience with Crypto Currency (be elaborate):

I've been using Bitcoin for about 3 years. I'm using it daily to pay and receive money for services and physical products.

Most Notable Crypto Currency Achievements:

<https://hackforums.net/showthread.php?tid=4531241>

Haven't been this active on HF lately, since I've lacked time. However, now I have lots of time in my schedule, so I'm ready to contribute and make bank.

Any additional notes:

I never give up.

I keep striving and fighting until I reach success, and even then, I won't settle. Never fucking settle.

lotss of loveee haha

Just because you know how to send and receive Bitcoin doesn't mean you are experienced in crypto currency.

Application denied. Not elaborate enough, tells me nothing about you except you use localbitcoins.

RegularJoe - September 14, 2016, 12:11 am

Age:21

Time Zone:GMT+8

Your skills:Arbitrage. It might sound easy but identifying the right products to trade is not always easy. It takes an experienced trader to identify the right product for the right market.

Experience with Crypto Currency (be elaborate): I'm mainly into bitcoins trading, besides the profit I earned from the currency trades I do on HF, I trade with a bitcoin exchange firm to earn from its price fluctuations. E.g. I earned about 200usd during brexit. Not a big amount as I just got started.

Most Notable Crypto Currency Achievements: Holding 5 btc at one point of time.

Any additional notes: I wish by joining this SF I can learn what I do not know about bitcoin

rm -rf I - September 14, 2016, 12:33 am

Age: 23

Time Zone: EST

Your skills: My strongest skills are going to pertain to programming. I have been coding with C, C++, and VB/.NET for 5+ years, and have a couple years of experience with Python, PASCAL, Java, and C#. Expansive knowledge in databases relative to SQL, VBA, Access, and Oracle. Numerous years of web coding with HTML, CSS, jScript, jQuery, and in-line back-end SQL programming. This includes manipulation through DoS, defacing, flooding, as well as JDB and other forms of exploitation. Expansive knowledge and experience with MITM, generating custom payloads, spoofing (web, DNS, phishing, and VB binding). Able to SE across many platforms, including face-to-face or via phone, to reach end goal - whether that is information or exploit. Strong experience with doxxing, building information, and using multiple forms of contact to profile. Whether that be through fake social media, QR Code payload linking, smtp email attacks, or targeted phishing.

Experience with Crypto Currency (be elaborate): Started a few years ago, but have managed multiple software wallets as well as cold wallets. Main experience is with BTC and ETH. Most of the BTC I had was mined through Botnets which I infected through payloads or JDB when it was

relevant. Was able to flip BTC after watching market trends, and make healthy assessments on investments. Also experience pertaining to tumbling, and anonymity in regards to movement of crypto. Includes AGC -> BTC, PayPal -> BTC, AGC -> Bank, and reverse SOCKS proxy from PayPal to BTC. Able to recognize P&D trends as well as market fluctuation to buy appropriately and sell accordingly.

Most Notable Crypto Currency Achievements: Created a sizable botnet via .exe/.jar exploitation and spoofing. Was able to mass spread/SE key targets to gain access to machine and manipulate. From there, setting up appropriate miners on the system to funnel into a decentralized wallet, which was then managed to flow into numerous software wallets and to be cashed out. Left the game for personal reasons and wiped all slaves clean.

Any additional notes: I am a very level-headed person, and believe that the job needs to be done right the first time. This means changing methods, adapting, and learning new techniques to stay ahead of the curve. When things get stagnant is when corners are cut, and cutting corners in the long run is a waste of time. I love helping people, and I would like to extend my knowledge to any others who might have questions with something, or is stuck and might need another set of eyes, or another opinion to put the gears in motion. Knowledge is power and I think that's the best motivator of them all.

CryptoMill - September 14, 2016, 3:45 am

Age: 34

Time Zone: Indian Standard Time (IST) GMT+5:30

Your skills: Technologies and integrated systems

Experience with Crypto Currency (be elaborate): Had been in crypto for a mere 2 months, but have already doubled my investments from .5btc to 1+btc watching and learning everyday including technicals and volume games

Most Notable Crypto Currency Achievements: Doubles my .5btc to 1+btc in just 3 weeks

Any additional notes: Very enthused to be part of the group. Looking forward to rock & roll

SIM-3115565 - September 14, 2016, 10:34 pm

Honestly this is an amazing group wish I could be apart of it again.

proof that you made \$15k gambling? skill or luck?

\$15k profit or \$15k won and even more or just as much lost?

this won't affect your application, I'm curious as to if you could make this much why couldn't you make more.

Inkie - September 15, 2016, 3:08 am

Age: I am currently seventeen years old.

Time Zone: (UTC +12)

Your skills: I am a very skilled ewhore i know it's not exactly a great talent but in my mind it am providing a service and at the end of the day the customer is satisfied am i am paid, and that is what matters. I am also a skilled marketer and a great salesperson i can always diffuse negative situations and put a positive spins on things, I am also working on learning video editing and crating youtube content mostly gaming related stuff but it's something i thoroughly enjoy doing.

Experience with Crypto Currency (be elaborate): I have a lot of experience trading and selling numerous crypto currencies such as litecoin, dogecoin and of course bitcoin, I also have a huge interest in bitcoin gambling and have made a fair amount of money doing so (I have spoke to maximus. about this and i'd prefer not to repost that information) I eventually would like to run a bitcoin gambling site one day.

Most Notable Crypto Currency Achievements:Winning \$15,000 gambling bitcoin over 6 months or so.

Any additional notes: I'd love to join this group so i can meet like minded members who are interested in making money and discussing numerous topics, I have been on hack forums for over two and a half years and haven't really connected with any other members and i feel like this group would be an amazing opportunity to do so thank you for taking the time to read my application

Fortunate - September 15, 2016, 9:39 am

Age: 19

Time Zone: GMT +1

Your skills: I am experienced with programming languages like Java and HTML. I am also good at social engineering, video/photo editing, investing in stocks (I've made \$5k this year from a few hundred bucks), exchanging Crypto Currency and helping in general. I am currently studying Business Information Technology.

Experience with Crypto Currency (be elaborate): Some time ago i used to work as a local BTC exchanger. I bought and sold BTC at my school. I had 3-8 people a day asking me to exchange BTC for them, i got nearly \$600 profit in a few months, I stopped doing this because an automated "BTC ATM" came in to our town with lower rates. Also, I've flipped BTC with good results.

Most Notable Crypto Currency Achievements: Probably having over \$1K BTC in my wallet for just exchanging bitcoin at my school. Also, I'm really proud that i made over \$5K investing to afford a nice summer trip for my family.

Any additional notes: I'm a very nice guy overall, i play drums and i mostly spend my weekdays on my computer and studying, the weekends partying and on my computer in the evening. Thanks for considering me.

?heshire - September 15, 2016, 10:07 am

Age: 21

Time Zone: CST

Your skills: Cracking, Dumping, Coding (JavaScript, Ruby)

Experience with Crypto Currency (be elaborate): I have had many expeditions into the world of Cryptocurrency, and I have profited from a majority of these. When it come to Trading i am highly experienced. I've profited from jumps in the market many of times.

What can you contribute to Nightmare's Underworld?: My knowledge, and skills can offer alot to this group.

Most Notable Crypto Currency Achievements: Tons of gains when it comes to investing into Crypto Currency early in to the market spikes

Any additional notes: I Hope that I can learn a lot from you guys, and that I can offer knowledge to you guys that can help you all as well.

???? **Shana** - September 15, 2016, 10:55 am

Age: 22

Time Zone: Central Time

Your skills: I am a very fast learner and strive to be the best at anything I do. I bring a positive mindset, can read market fluctuations, and can successfully invest and trade crypto currency to turn profits.

Experience with Crypto Currency (be elaborate): I have been investing in bitcoins for about a year now with my most notable profits being being 75% buying in May and selling in June. I've also gotten experience from exchanging and can scale small amounts of cash overtime through exchanging for profit. Another experience I have is gambling with crypto currency where I've had losses, but generally large wins due to being able to self-control, stick to strategy, and being patient.

What can you contribute to Nightmare's Underworld?: I am not sure yet since others will probably have more experience than me, but I will share my knowledge when others need help and I can offer my skills on group projects.

Most Notable Crypto Currency Achievements: 75% profit from investments within a month, over \$5k profits in bitcoin gambling across SM/BaB, and ~\$500 profit so far from trading starting with \$100.

Any additional notes: I look forward to being in the group and appreciate you taking the time to read my app ?

SIM-2263652 - September 15, 2016, 1:12 pm

Age: Not public information.

Time Zone: +2GMT

Your skills:

-Cryptocurrency-

I have been using bitcoins since I started being a member here.

So that would be 2014. I use BTC as my main currency and I have studied alot of its theory. For an example the math and functions behind it.

-Coding-

I have been coding since I was eleven. I started with Java and minecraft. I made the famous angrybird mod as my first project.

From that on I moved on other things and I left Java. Those things were mainly VB.NET, CSS, HTML and JS. I am mainly a frontend developer.

-Misc blackhat skills-

I have a pretty good general idea about all hacking "territories" etc.

Experience with Crypto Currency (be elaborate): Same as stated above. I am familiar in the practical aspect and theoretical.

Most Notable Crypto Currency Achievements: I make cryptocurrency by offering my services.

Any additional notes:

I am very active and I like to consider myself HQ. This application is short, since I belive in quality over quantity. I don't talk much.

NZT - September 17, 2016, 8:56 am

Age: Not public.

Time Zone: UTC/BST

Your skills: Crypto-trading, digital marketing, business strategy, and web creation.

Experience with Crypto Currency (be elaborate): Been involved in the crypto scene for 4 years on-and-off. Have ran a p2p bitcoin exchange, mined, incorporated bitcoin payments into a number of other businesses, and have more recently become involved in crypto-trading, and building up a crypto-based social media presence to help shill during collaborative buy-in opportunities.

Most Notable Crypto Currency Achievements:

5-digit profit from a crypto-currency exchange I established.

Double digit % monthly returns on my crypto portfolio.

Jefe - September 17, 2016, 12:53 pm

Age: 18

Time Zone: GMT -5 (Eastern Standard Time)

Your skills: Well, this is a broad question and I could include a lot. I've been experimenting with computers since I was about ten, when floppy drives were still a thing and so was Windows XP. I have covered far and wide from learning about things regarding bot-nets to setting up companies. I currently run Knife-Down Networks, we are middle-sized company that is growing, we are currently catering hundreds of customers.

I am experienced in several coding languages, my best would be PHP of-course, than slightly moving on towards LUA, MySQL, and very little java-script. I'm learning more and more regarding network structures everyday. I'm currently certified in mobile forensics, allowing me to recover any data, deleted or lost.

Not only am I familiar with computer-related subjects but also business management. Besides running my own business I have also worked with my family, who own and operate a small shop in our local town. I am currently a manager at the home of the whopper (burger king -- Fuck them though, about to quit on there asses right in the middle of a shift).

Experience with Crypto Currency (be elaborate): Since bitcoin first exploded I have been involved with it's development, silently watching in the background. I have watched it plummet than rise time-and-time again. Currently, my company Knife-Down Networks accepts bitcoin, as well as other coins. For a little while I did some small-time bitcoin investment projects as well as gambling.

Most Notable Crypto Currency Achievements: Not much really, didn't realize you could achieve much in Crypto Currency, but I'm extremely excited to learn more.

Any additional notes: nutto

Completly agree with you! Not even going to denied it. But only ur last statement... i can show proof but theres really no point any more lol.

Thank you for your honest opinion!

ZeZil - October 4, 2016, 11:39 pm

Age: 17

Time Zone: PST

Your skills: {deleted} I've got a fair bit of knowledge from stocks/forex that can be applied to btc. Above all though, I have connections and an understanding of highly profitable btc businesses and how to safely operate them. I'm not here to waste time, I'm here to make money as I'm sure others are, and I can guarantee that I will be an asset to the group. I don't know everything; if I did I wouldn't be joining. However, I do have a lot of knowledge, news sources, and funds. As far as the vague description of news sources; I can go more in depth privately.

Experience with Crypto Currency (be elaborate): I've dealt primarily in bitcoin. Though I've mainly used it as a proxy for other business, I have quite a bit of knowledge and moreover connections. I've been holding bitcoin in large sums for well over a year and have observed the market fully. Personally, my experience goes beyond just trading btc and more into the btc business sector. I've seen potential in casino's, HYIP, etc (owning one, not using them). I feel real profit comes from playing the market in the right scenarios, insider information (to whatever extent that it exists, more

so news before it goes public), and btc business.

Most Notable Crypto Currency Achievements: {deleted}

Any additional notes: I'm interested in joining for profit first and foremost. I do not believe in the bullshit "methods" etc. I won't blindly trust. I do not gamble, though I realize business has to have some risk. I realize that working in a group can significantly increase profitability; as such I'd like to work together and share info to build highly profitable opportunities. I don't want to work with some hf skids who are buying ebooks and shit, but you guys certainly seem like the opposite. You guys seem legitimate, so I'm very interested in working together assuming you are.

Bindsy - October 5, 2016, 8:29 am

Brasil - October 5, 2016, 3:40 pm

Age: 18

Time Zone: UTC-8

Your skills: Programming (see my signature). I have exchanged thousands of dollars here on HF in the currency exchange section.

Experience with Crypto Currency (be elaborate): I have mostly exchanged bitcoins for profit.

Most Notable Crypto Currency Achievements: People trust me in the Currency Exchange section.

Any additional notes: Can't wait.

ra1d - October 5, 2016, 3:50 pm

Age: 21

Time Zone: GMT+1

Your skills: Software development, Malware / File Analysation (Basic RE), Cryptography, Project Management and probably more that I forgot to list.

Experience with Crypto Currency (be elaborate): I've used Bitcoin and other crypto currencies as part of my online business endeavours and it has been very successful.

Most Notable Crypto Currency Achievements: I've pretty much lived off of Bitcoin during 1 year. (2015-2016)

Any additional notes: I would love to share knowledge and learn new things about crypto currencies, so a group with main focus on it would be awesome to be part of.

Dr. Gonzo - October 5, 2016, 3:54 pm

Age: 20

Time Zone: USA EAST

Your skills: Pentesting, webhacking, Java, rats, Python, web development, remote exploits

Experience with Crypto Currency (be elaborate): I've set up silent cryptominers, exchanged for people and traded a bit (Though I'm not big into trading yet)

Most Notable Crypto Currency Achievements: I used to exchange for people on the DL

Any additional notes: Foremost I'm a greyhat hacker, but I love using cryptocurrencies whenever possible.

mvmt - October 5, 2016, 8:04 pm

Age: 18+

Time Zone: CST

Your skills: Web/graphic design, computer programming, business management, crypto-trading

Experience with Crypto Currency (be elaborate): I have used BTC and alt coins for years and trading has become a large hobby of mine. In the past, I have ran an OMC mining pool/faucet and used crypto as a form of payment for my online businesses. I currently have 2 large projects in development that are highly revolved around BTC (if you'd like any more information regarding these projects, just PM me. They will be registered businesses, not a basic HF project). On the side of crypto-trading, I have been involved in a few pump and dumps already and know what it takes and the time involved with accumulating/holding/test-pumps/etc.

Most Notable Crypto Currency Achievements: I'm highly proud of my success in crypto trading, along with the current development of my 2 businesses that revolve around BTC. They are not yet public, but I am already proud of the progress and excited for their potential.

Any additional notes: I believe we are already in one of the same crypto groups on Discord :D

Arkks - October 6, 2016, 5:44 am

Age: 14

Time Zone: Australian Eastern Time Zone UTC+10:00

Your skills: Linux based botnets (been in the linux based/iot game for over around a year now , Windows based botnets (not what im best at but I have experience) , C (not the best but I kind of know what im doing) , web development (currently dont have any sites up as im too lazy to keep up any of my old sites like <http://richy.pw>) , making btc (total profit is around \$30000 until i lost it but recently I have been making around \$50 - \$200 a day)

Experience with Crypto Currency (be elaborate): mainly into btc gambling and I make around atleast \$100 a day to max around \$2000 a day. I have also done plenty of different btc/paypal exchanges on site (check my rep)

Most Notable Crypto Currency Achievements: went to sleep running a auto script and woke up with \$1320 and also I have held over 15btc at once.

Any additional notes:

Allelujah - October 6, 2016, 12:13 pm

Are you talking about NYSE pump&dump or just crypto?

mvmt - October 6, 2016, 12:42 pm

(Oct 6, 2016 12:13 PM)Allelujah Wrote: [\[CITE\]](#) Are you talking about NYSE pump&dump or just

crypto?

I don't mean to speak for OP but 100% sure he means just crypto, NYSE P&D's are highly illegal.

sLACKER - *October 6, 2016, 10:51 pm*

Age: 30

Time Zone: Central (US and Canada)

Your skills: Hype Man... I can sit and argue with any nay sayers and make them seem wrong. I am pretty much a investor who uses the trollboxes to my favor!

Experience with Crypto Currency (be elaborate): I jumped in with XMR and profited... Been watching markets ever since. I am in a few chat groups pertaining to the subject, I dont talk much and mainly read and pay attention to ideas, methods etc being shared to gain more knowledge.

Most Notable Crypto Currency Achievements: Invested \$25 in XMR turned it into \$150... Not bad for my first time.

Any additional notes: I am not a pro, I have no problem admitting I am still learning the ins and outs, I feel with the correct group of people around me to learn from I can not only personally advance knowledge wise but help others along the way.
