I am getting the idea of the method and I am getting better and better in it, I hope I will be able to double my investment with at least 300% the next time. I will keep you guys updated again.

Thanks Zelix for offering me the method, I really appreciate your help, you did a lot for me. If there's any way to pay you back, let me know.

Though my mind is still a tad fucked up from taking to much dmt the other day, and it being 4:00 am, it is quite sophisticated. I have dealt with Zelix previously and he is quite ingenious; and it truly shows in this method. From what I know so far, this cannot be saturated. This method will teach you how to use the system of gambling websites and gain some good profit out of it. You will NOT be making the money from putting money on bets, actually, you'll be losing a little bit of your money before you start earning. I won't go into details, if you're really interested, feel free to contact me.

How does the method work?

This method will teach you how to use the system of gambling websites and gain some good profit out of it. You will NOT be making the money from putting money on bets, actually, you'll be losing a little bit of your money before you start earning. I won't go into details, if you're really interested, feel free to contact me.

What are the requirements for this method?

The only main requirement is some money to invest, that's all. The other requirements are:- Time-

Patience- Some brain cells (anywhere from 1+)

What? Risk-Free Gambling? That's not possible.

Risk-Free gambling is indeed NOT possible. However, gambling with our method is risk-free. Huh what? Yes, your investment is safe using our method. Don't worry.

What is the calculating machine?

The calculation machine is a simple file, you will be using the file to calculate your losses/profits and so on. It's a really good way to make this method semi-autopilot, and it saves you from a LOT of work.

Overall: 8/10

I found the eBook to be very informative, with a easy to understand layout and clearly narrated how to videos, it's quite fool proof. The seller, Zelix has been quite helpful over Skype with understanding and setting up this method.

Layout and Design: 8.5/10

The eBook is quite simple and easy to navigate, it is unique in the sense that it is a visual eBook

that guides you through all the processes step by step.

Overall Value: 10/10

I would say that at the price of \$97.99 you are getting a really good deal, I have spent \$200+ on eBooks that don't come close to that quality and earning capability of this eBook.

(Jun 28, 2016 01:17 AM)R.I.P Wrote: [\[CITE\]](#) I bought this method around a week ago. Here's my review of it.

Originality: 10/10

You have not seen this method before in any shape or form. It doesn't have anything to do with the odds of betting, playing the market etc, as we all know you can't beat the system. This takes advantage of the market to make money.

Grammar: 9/10

The speaker of the videos is very clear and easy to understand. He explains the method well, however, there is some room for further explanation. Despite this, he shows you live examples and gives a lot of insight, so it is nearly as good of an explanation as you can get.

Practicality: 8/10

This method is extremely difficult to figure out by yourself or make by yourself, and for that reason you should definitely get the version with the calculation tool, or you are going to have a hard time (practicality is probably a 5/10 without it). With the tool and the videos, it is quite easy to apply. You will get better at it as you go, and the good news is you will likely always be making a profit even if you're just starting. You'll just be making even more with experience. If you're from the United States or a country where online gambling is illegal, you will have to hop through a couple hoops in order to get this working, as the guide is made by a Dane. Bottom line, this is more practical to implement than 95% of the other eBooks on here. No selling, making websites, advertising, or stuff like that.

Overall: 9/10

This is one of the best methods I have come across on HF. It is best that you reserve yourself a few hours for viewing and understanding, watch it all in one go, and then reserve yourself a day to run trials (you'll figure out what this means when you get the method) and actual execution of the method. It is quite straightforward for people outside of the US, and they can probably start earning in a couple days. For those in the US, obviously you'll need a way to deal with the fact that online gambling is illegal here, but even with that it is going to be the best way to make money you'll find.

I should also mention that this can make you an obscene amount of money depending on your investment. It is not a stretch to say you will double your investment, as you can (with luck on your side) triple your investment. If you get very unlucky and aren't good at the method you might make 80% profit. The point is that you can invest a thousand bucks into this and make two thousand in a couple days, so that's insane.

(Jun 14, 2016 05:44 PM)Royal Bash Wrote: [\[CITE\]](#) This is my official review of Zelix's Gambling Exploitation method.

I've got this method for a week now, Zelix & I have actually been using the method (until some Dutch laws were fucking us over with taxes when cashing out, lol) and this is my review.

1. The Method

The method itself is simple, it's easy, anyone can do it, but it's working, and that's the most important thing. Basically, what you need is an investment (the bigger the investment, the bigger your profit), a gambling website, place some bets and make sure you can get paid out.

2. The videos

I was really happy to have videos with explanation instead of e-books, you can follow the method step by step and see how it's been done without having to ask someone for screenshots, screensharing or whatever. There are more than 20 videos in the package, and they're like 400MB in total. HQ!

3. Saturation

Honestly, the method can't get saturated, BUT, it can get harder if a lot of people will do the same thing, so, my tip: keep this for yourself and go earn some good money!

I rate this method a 9/10, why? Well, this is one of the first methods I've seen that's actually working, I made my first \$300 already, (with some help of Zelix starting it up). I will try to do the method again, but with BitCoins instead, should be a little bit harder (not harder, but it will take some extra time to profit), but I will try it asap. I also love the videos, and I think more people on HF should use videos instead of those simple e-books.

Good job on this Zelix, and thanks for letting me be one of the first people to try this out.

PS: Will update with new payment proof soon!

So with that out of the way, Zelix gave me a vouch copy and I must say that this is the BEST method I have ever seen. It will require time and an initial investment, but the results will be amazing!

Uniqueness

I have personally NEVER seen a method like this before.

Quality

As said earlier, the content of the method is amazing. This is definitely not just the average "Make 1k a day" method. As I said, it does require some time, but it's totally worth it. Also everything is explained with videos, which makes it really easy to follow.

Saturation

For as far as I can see this can never be saturated. So you don't have to worry about that when

purchasing.

Difficulty

The method is fairly easy, but I do recommend to go with the full package as especially the pre-made calculation system is a very nice thing to have!

Overall

A great method to say the least. If you want to make some money, go buy your copy today!

I really can't say more about the method without giving things away.

Awesome job Zelix, goodluck with the sales!?

(Jun 15, 2016 03:15 PM)Vanill?a Wrote: [\[CITE\]](#) I was one of the few to receive a vouch copy of this method and here's my more in-depth review.

Firstly, this is not an eBook, you receive 20 videos with full commentary guiding you from the very start to the very finish, making it very easy to follow.

The method itself, I haven't seen anything like it before, and when he says it's risk-free, it genuinely is. At first I didn't really understand it but Zelix soon explained and I instantly understood it all.

I'm in the process of attempting the method myself now and I look forward to the results.

I can honestly say you won't regret buying this!

Overall: 8/10

I found the eBook to be very informative, with a easy to understand layout and clearly narrated how to videos, it's quite fool proof. The seller, Zelix has been quite helpful over Skype with understanding and setting up this method.

Layout and Design: 8.5/10

The eBook is quite simple and easy to navigate, it is unique in the sense that it is a visual eBook that guides you through all the processes step by step.

Overall Value: 10/10

I would say that at the price of \$97.99 you are getting a really good deal, I have spent \$200+ on eBooks that don't come close to that quality and earning capability of this eBook.

(Jun 27, 2016 09:42 AM)CheGuevara? Wrote: [\[CITE\]](#) Bought. Promising! I haven't watched all videos yet, but I will soon begin my journey. I try to stay updated in this thread.

Thank you so much! Hope to make lots and lots of profits soon!

(Jun 28, 2016 01:17 AM)R.I.P Wrote: [\[CITE\]](#) I bought this method around a week ago. Here's my review of it.

Originality: 10/10

You have not seen this method before in any shape or form. It doesn't have anything to do with the odds of betting, playing the market etc, as we all know you can't beat the system. This takes advantage of the market to make money.

Grammar: 9/10

The speaker of the videos is very clear and easy to understand. He explains the method well, however, there is some room for further explanation. Despite this, he shows you live examples and gives a lot of insight, so it is nearly as good of an explanation as you can get.

Practicality: 8/10

This method is extremely difficult to figure out by yourself or make by yourself, and for that reason you should definitely get the version with the calculation tool, or you are going to have a hard time (practicality is probably a 5/10 without it). With the tool and the videos, it is quite easy to apply. You will get better at it as you go, and the good news is you will likely always be making a profit even if you're just starting. You'll just be making even more with experience. If you're from the United States or a country where online gambling is illegal, you will have to hop through a couple hoops in order to get this working, as the guide is made by a Dane. Bottom line, this is more practical to implement than 95% of the other eBooks on here. No selling, making websites, advertising, or stuff like that.

Overall: 9/10

This is one of the best methods I have come across on HF. It is best that you reserve yourself a few hours for viewing and understanding, watch it all in one go, and then reserve yourself a day to run trials (you'll figure out what this means when you get the method) and actual execution of the method. It is quite straightforward for people outside of the US, and they can probably start earning in a couple days. For those in the US, obviously you'll need a way to deal with the fact that online

gambling is illegal here, but even with that it is going to be the best way to make money you'll find.

I should also mention that this can make you an obscene amount of money depending on your investment. It is not a stretch to say you will double your investment, as you can (with luck on your side) triple your investment. If you get very unlucky and aren't good at the method you might make 80% profit. The point is that you can invest a thousand bucks into this and make two thousand in a couple days, so that's insane.

I'm posting here because I'm not getting any response from support or via PM.

I have a few questions, can you help me?

How to play videos 6 and 7. Do you always top up the accounts that have the higher play throughout amounts from the other smaller accounts?

Can you add and withdraw money via PayPal?

Can you use Top up credit cards?

Do you need Different IP's? A friend was not able to open an account in his wife's name due to the same IP.

I have a few questions, can you help me?

How to play videos 6 and 7. Do you always top up the accounts that have the higher play throughout amounts from the other smaller accounts?

Can you add and withdraw money via PayPal?

Can you use Top up credit cards?

Do you need Different IP's? A friend was not able to open an account in his wife's name due to the same IP.

Sorry man, i've been quite busy. Have you added me on Skype?

Seems to me like this is just arbing, free bets from bookies and trading. Besides that probably the casino bonuses and reload offers. Can you maybe give a idea what extra's your ebook gives before I pay for this? Since otherwise it's just free information available wide spread on the internet.

Overall: 8/10

I found the eBook to be very informative, with a easy to understand layout and clearly narrated how to videos, it's quite fool proof. The seller, Zelix has been quite helpful over Skype with understanding and setting up this method.

Layout and Design: 8.5/10

The eBook is quite simple and easy to navigate, it is unique in the sense that it is a visual eBook that guides you through all the processes step by step.

Overall Value: 10/10

I would say that at the price of \$97.99 you are getting a really good deal, I have spent \$200+ on eBooks that don't come close to that quality and earning capability of this eBook.

(Jun 27, 2016 09:42 AM)CheGuevara? Wrote: [\[CITE\]](#) Bought. Promising! I haven't watched all videos yet, but I will soon begin my journey. I try to stay updated in this thread.

Thank you so much! Hope to make lots and lots of profits soon!

Anyone dealing with BTC using this? Please PM me! ?

(Jun 28, 2016 01:17 AM)R.I.P Wrote: [\[CITE\]](#) I bought this method around a week ago. Here's my review of it.

Originality: 10/10

You have not seen this method before in any shape or form. It doesn't have anything to do with the odds of betting, playing the market etc, as we all know you can't beat the system. This takes

advantage of the market to make money.

Grammar: 9/10

The speaker of the videos is very clear and easy to understand. He explains the method well, however, there is some room for further explanation. Despite this, he shows you live examples and gives a lot of insight, so it is nearly as good of an explanation as you can get.

Practicality: 8/10

This method is extremely difficult to figure out by yourself or make by yourself, and for that reason you should definitely get the version with the calculation tool, or you are going to have a hard time (practicality is probably a 5/10 without it). With the tool and the videos, it is quite easy to apply. You will get better at it as you go, and the good news is you will likely always be making a profit even if you're just starting. You'll just be making even more with experience. If you're from the United States or a country where online gambling is illegal, you will have to hop through a couple hoops in order to get this working, as the guide is made by a Dane. Bottom line, this is more practical to implement than 95% of the other eBooks on here. No selling, making websites, advertising, or stuff like that.

Overall: 9/10

This is one of the best methods I have come across on HF. It is best that you reserve yourself a few hours for viewing and understanding, watch it all in one go, and then reserve yourself a day to run trials (you'll figure out what this means when you get the method) and actual execution of the method. It is quite straightforward for people outside of the US, and they can probably start earning in a couple days. For those in the US, obviously you'll need a way to deal with the fact that online gambling is illegal here, but even with that it is going to be the best way to make money you'll find.

I should also mention that this can make you an obscene amount of money depending on your investment. It is not a stretch to say you will double your investment, as you can (with luck on your side) triple your investment. If you get very unlucky and aren't good at the method you might make 80% profit. The point is that you can invest a thousand bucks into this and make two thousand in a couple days, so that's insane.

Hi,

I am very interested in purchasing this exploit.

I do have some questions though:

Would i need to have more than one sportsbetting account? Due to the region I live in, there is only one serious online bookie, and if more than one account is needed, then this method will not work for me.

Would this involve anything similar to arbitrage betting? Or exploiting bonuses from different bookies?

Zelix, if you could PM me answering my questions, that will be really appreciated,

Overall: 8/10

I found the eBook to be very informative, with a easy to understand layout and clearly narrated how to videos, it's quite fool proof. The seller, Zelix has been quite helpful over Skype with understanding

and setting up this method.

Layout and Design: 8.5/10

The eBook is quite simple and easy to navigate, it is unique in the sense that it is a visual eBook that guides you through all the processes step by step.

Overall Value: 10/10

I would say that at the price of \$97.99 you are getting a really good deal, I have spent \$200+ on eBooks that don't come close to that quality and earning capability of this eBook.

(Jun 28, 2016 01:17 AM)R.I.P Wrote: [\[CITE\]](#) I bought this method around a week ago. Here's my review of it.

Originality: 10/10

You have not seen this method before in any shape or form. It doesn't have anything to do with the odds of betting, playing the market etc, as we all know you can't beat the system. This takes advantage of the market to make money.

Grammar: 9/10

The speaker of the videos is very clear and easy to understand. He explains the method well, however, there is some room for further explanation. Despite this, he shows you live examples and gives a lot of insight, so it is nearly as good of an explanation as you can get.

Practicality: 8/10

This method is extremely difficult to figure out by yourself or make by yourself, and for that reason you should definitely get the version with the calculation tool, or you are going to have a hard time (practicality is probably a 5/10 without it). With the tool and the videos, it is quite easy to apply. You will get better at it as you go, and the good news is you will likely always be making a profit even if you're just starting. You'll just be making even more with experience. If you're from the United States or a country where online gambling is illegal, you will have to hop through a couple hoops in order to get this working, as the guide is made by a Dane. Bottom line, this is more practical to implement than 95% of the other eBooks on here. No selling, making websites, advertising, or stuff like that.

Overall: 9/10

This is one of the best methods I have come across on HF. It is best that you reserve yourself a few hours for viewing and understanding, watch it all in one go, and then reserve yourself a day to run trials (you'll figure out what this means when you get the method) and actual execution of the method. It is quite straightforward for people outside of the US, and they can probably start earning in a couple days. For those in the US, obviously you'll need a way to deal with the fact that online gambling is illegal here, but even with that it is going to be the best way to make money you'll find.

I should also mention that this can make you an obscene amount of money depending on your investment. It is not a stretch to say you will double your investment, as you can (with luck on your side) triple your investment. If you get very unlucky and aren't good at the method you might make 80% profit. The point is that you can invest a thousand bucks into this and make two thousand in a

couple days, so that's insane.

Overall: 8/10

I found the eBook to be very informative, with a easy to understand layout and clearly narrated how to videos, it's quite fool proof. The seller, Zelix has been quite helpful over Skype with understanding and setting up this method.

Layout and Design: 8.5/10

The eBook is quite simple and easy to navigate, it is unique in the sense that it is a visual eBook that guides you through all the processes step by step.

Overall Value: 10/10

I would say that at the price of \$97.99 you are getting a really good deal, I have spent \$200+ on eBooks that don't come close to that quality and earning capability of this eBook.

(Jun 27, 2016 09:42 AM)CheGuevara? Wrote: [\[CITE\]](#) Bought. Promising! I haven't watched all videos yet, but I will soon begin my journey. I try to stay updated in this thread.

Looks real good so far. Zelix is a very friendly and helpful guy too, couldn't find a better seller.

Thank you so much! Hope to make lots and lots of profits soon!

Anyone dealing with BTC using this? Please PM me! ?

(Jun 28, 2016 01:17 AM)R.I.P Wrote: [\[CITE\]](#) I bought this method around a week ago. Here's my review of it.

Originality: 10/10

You have not seen this method before in any shape or form. It doesn't have anything to do with the odds of betting, playing the market etc, as we all know you can't beat the system. This takes advantage of the market to make money.

Grammar: 9/10

The speaker of the videos is very clear and easy to understand. He explains the method well, however, there is some room for further explanation. Despite this, he shows you live examples and gives a lot of insight, so it is nearly as good of an explanation as you can get.

Practicality: 8/10

This method is extremely difficult to figure out by yourself or make by yourself, and for that reason you should definitely get the version with the calculation tool, or you are going to have a hard time (practicality is probably a 5/10 without it). With the tool and the videos, it is quite easy to apply. You will get better at it as you go, and the good news is you will likely always be making a profit even if you're just starting. You'll just be making even more with experience. If you're from the United States or a country where online gambling is illegal, you will have to hop through a couple hoops in order to get this working, as the guide is made by a Dane. Bottom line, this is more practical to implement than 95% of the other eBooks on here. No selling, making websites, advertising, or stuff like that.

Overall: 9/10

This is one of the best methods I have come across on HF. It is best that you reserve yourself a few hours for viewing and understanding, watch it all in one go, and then reserve yourself a day to run trials (you'll figure out what this means when you get the method) and actual execution of the method. It is quite straightforward for people outside of the US, and they can probably start earning in a couple days. For those in the US, obviously you'll need a way to deal with the fact that online

gambling is illegal here, but even with that it is going to be the best way to make money you'll find.

I should also mention that this can make you an obscene amount of money depending on your investment. It is not a stretch to say you will double your investment, as you can (with luck on your side) triple your investment. If you get very unlucky and aren't good at the method you might make 80% profit. The point is that you can invest a thousand bucks into this and make two thousand in a couple days, so that's insane.
