Yeah just wanted to show an update and thanks, Didnt know he used SC

Gary - September 13, 2016, 4:07 pm

He posted on Snapchat today stating his account is still stolen, do not deal with under any circumstances until he recovers his HF accounts and makes a thread.

Yep. He's not responding to me which is very weird, not like him.

The GRim - September 13, 2016, 7:44 pm

My reliable source is still telling me that Regulus sold his skype/HF.

I don't think so. He's literally posted on his Snapchat story every day saying do not deal with his Skype account.

It would be ignorant to think not.

If he didn't sell his account why would he turn off his 2auth b4 getting compromised???

I guess no one will know the conspiracy theory behind this tragedy

Then your reliable sources aren't so reliable. Regulus is the last person to sell his account.

So those of you with his SC, what's his progress in securing himself? This seems to have been on-going for days; shouldn't take days to secure your Skype account?

Vanderbilt - September 14, 2016, 4:16 pm

You know I was thinking that maybe bullets has a 2fa exploit but It takes some money and time so he first offers the users and when they decline, If he thinks its worth enough, he does it.

Lufasu - September 15, 2016, 5:57 pm

regulus would never sell his account , i hope its all get sorted.

miomar - September 15, 2016, 6:08 pm

Honestly it doesn't matter to me, he either is pretending to be compromised in order to scam other people or he was really compromised which is also bad and it means he isn't a secure and reliable person

Just stating my opinion

Arya Stark™ - September 15, 2016, 6:08 pm

Everyone saying that Regulus would never sell his account. You never know what could happen. I've been on hackforums for over six years and I've seen even more reputable users pull shit like this. Be safe and assume the worst.

Riyu - September 15, 2016, 6:14 pm

Why does everyone get the assumption that it was Bullets? Everytime someone gets compromised people scream bullets lol

Because of the only thing he did when he got on the account. HORRIBLE grammar and going big amount and other users go first on bitcoin. Also people said he jacked his skype and after I fucked with him and "wanted to do an exchange", I pulled out and he used a skype bomber and said "Ok, understand?"

So, Yeah it is him.

LMAO. It isn't Bullets, I can say that for 100%. Why would a known scammer, troll on one of the most profitable forum accounts? That's just retarded.

So, Yeah it is him.I'm pretty sure it wasn't him. I've never been around when he scams but I've heard that he's usually successful at scamming. Whoever took the account literally just trolled

Zexo - September 16, 2016, 4:14 am

Shame he is still hacked seen some of his snapchats about it surprised he hasn't gotten his shit back.

Perhaps he sold his accounts, and is trying to cover it up as best as possible? I'm not saying this is true, but I don't think he'd easily get compromised like he did.

Doubt it honestly I've known regulus for a long time and he loves this forum too much to just sell his account.

Prophett - September 16, 2016, 6:50 am

I haven't seen him around in a while.

He was always trying to get money, maybe he just gave up and decided to make some fast cash. You never know.
