Thread: [Logo needed for my new project- please help :\)](#)

UTRONEX - September 14, 2016, 2:29 am

Hi everyone. I'm starting a new project called "Cake Or Dare" which will involved me trying to take down huge dessert challenges all in the name of discovery. Got a few plans for it including reviews of local cake places and I'm really looking forward to getting going.

I need a logo and profile picture making. I will be using Instagram, Twitter, Facebook and Snapchat to reach my audience. For the logo (banner picture) I want something colourful and full of cakes, cookies, chocolate etc with some fun font on there to show my logo "Cake Or Dare" I would also like the relevant social media icons somewhere on the logo with my usernames after:

Facebook Cake Or Dare

Twitter @CakeOrDare

Instagram cakeordare

Snapchat cakeordare

Example:

[IMG]http://i1208.photobucket.com/albums/cc369/Sniper_/3B43168F-F0FC-455B-81C3-E35B1ACCA0B6_zps6womv9gh.jpg[/IMG]

The profile picture I'm not really sure what I'm after just go nuts with it but something related to the logo :)

Pixels-

Facebook banner- 828x315

Facebook profile- 300x300

Twitter banner- 1500x500

Twitter profile- 400x400

Instagram profile- 300x300 (displays as a circle, if you can work with that it would be cool)

I want the same banner/ profile pictures for every page just need the different size images to accommodate different sizes on each platform.

Thanks for reading, it was a little long haha. Look forward to seeing some pictures :)

Anyone help me out with this?
