I think that you'll never going to get 86% lol.

That's really too much when there are sellers for 60-70%.

What's making your AGC that special for this big rate?

Is it atleast physical?

Oh Danny i sold you over 50 Amazon Cards :)

I think you know why my rates are so high.

Never had one issue with you realted to any Card i sold to you.

So basicly i'm not really in the rush to sell it so...

There's people who will buy this... if not i will just keep collecting
or maybe add it to my Amazon Balance

But i know what i'm doing trust me ?

Well, I am just saying that your card will not be sold that easily since there are a lot of sellers
nowadays man, at lower rates.

But good luck with sales!
