Very nice piece of software!

You are now able to secure cracked accounts as you can finally change the email on the accounts again!

Good luck with selling this.

No you can't.

You need to confirm the email change with the old email.

Cracked accounts are useless if you cannot access their old email.

Many accounts use the same password for both email and ptc account.

No I wouldn't say many. Most email providers require stronger passwords than PTC does. That's mainly the reason why so many get cracked.

It's a shame that the GFX section isn't as active as it was when I first joined.

I'm a big fan of the UI as well, but I'm too much of huge anti-activist of these crackers, but the Pokemon Go ones seem to be just as frequent as the Netflix or Hulu ones.
