How is the password recovery? I bought a keylogger recently because the password recovery on my rat is shit, and the one of the keylogger wasn't much better lol. 14\$ is pretty low for all of these features, might buy it. glws

The password recovery is awesome, it works perfectly, i vouched 3 days after i purchased this logger, cos i needed to be satisfied with it, i even had to use a crypter i felt wasn't gonna work well, but the result i got was awesome, i just need a compatible crypter now, a C# crypter...but ADVANCED KEYLOGGER really works well
