Thread: [Webmaster Digger 1.3 - The webmaster & web digger tool](#)

prilux - September 16, 2016, 12:55 pm

Webmaster Digger provides to users a research tool for domains, very usefull if you want to know more information about a particular website. It gives all you need as a webmaster and all that you need as a web digger.

According to Full-Disclosure:

Webmaster Digger the best web research user interface at a distance of 2 clicks.

According to WebInsider

Good for webmasters that doesn't like to use the command prompt.

Isn't it a bit blackhat to share this? I thought the software was copyrighted, you can't share warez on this board.

prilux - September 17, 2016, 4:35 am

It's open source and free for now.
