Is Demonoid halfway decent again or are we just registering for a dead semi-private tracker?

Yup, KAT is gone and the owner has been arrested unfortunately.

Replied to everyone that has pm'ed me.

Sorry for the late reply I was out with my dad today.

Enjoy all!

Reading my profile now, I can't make any more invites at the moment. I will try torrenting for a bit and see if that unlocks any more for me :(

Sorry guys..
