I've made \$204.50 USD today according to Preev, or 335,000 bits. Not bad.

Although I'm a bit confused how you did this (Preev = for stock?) it's a nice amount :) Congrats with that!

I made it on Bustabit.

Preev.com is a website where you can find out the price of Bitcoin.

I just hope you can earn that everyday, if not, it sucks.

Go have fun and buy something cool for yourself. :)

you profited \$204.50, you didn't make it

Eyeborg - September 18, 2016, 5:15 am

Great, you made \$204.50 on Bustabit. Now spend it on something nice; don't gamble that again and then lose it all.
