The guide itself is nicely done with just a few pages so it is a quick and easy read, but paranormal just walked me through all of it. It literally took less than 5 min and we both made \$10. This is not a blackhat method whats so ever and is as legitimate as it can get, you just need someone you trust so you can both make \$10.

There isn't much else to say, since I do not want to give too much away but the method actually works and can help you get some quick cash! (Sep 19, 2016 08:36 AM)Skyp? Do you need a new friend/family's bank account each time you do it? or just one? What do you need to do this? like requirement wise. do I need my own bank account too?

Yes it must be a different person/bank account each time it's done and you will also need a checkings account because you will need to transfer the funds and profit directly to your bank.

The only requirements are to have a smartphone, a checkings account with at least \$50, and friends/family to share this with as well.

It's very simple and straightforward.

So you basically make \$10 each time you get someone to sign up? And then if you only had 5 people willing to do it you would make \$50?

Just purchased this ebook, contacted Paranormal because I was a little confused with a portion of the method but he is assisting me and even offered to do the method with him and I so I could get started. Nice guy, great method.

So you're selling the knowledge of the referral program which is presented as you register for the app.

Must've taken a big brain to figure out this 20\$ method.

Basically spreading the app, explaining in detail everything about how it works and how to profit off of it without spending a penny.

Personally I've made over \$160 in 2 days of talking to friends/family/coworkers...

Still for sale!

Taking this method down in a week.

Aigoune23 - September 26, 2016, 2:49 pm

Hi man, does this method works worldwide?

Yin Yang - September 26, 2016, 2:54 pm

This is well known throughout New York. I myself made probably like \$200 or so. If the person you referred didn't get \$10, there would be no incentive for them to join
