Thread: [Is selling Amazon aws codes acceptable here?](#)

Nopee - September 18, 2016, 2:34 pm

Is this kind of product available here?

Reece Morgan - September 18, 2016, 3:54 pm

HF allows the sale of AGC, so I don't see why AWS promo codes wouldn't be allowed.

Hmm, I'm not sure if you're correct here... I found this:

<https://hackforums.net/showthread.php?tid=5138013> which was asked this year sooo.

But then I found: <https://hackforums.net/showthread.php?tid=4968103>

Which was last year.

But this is different from amazon giftcards.

These are for the amazon web services.

Like the ec servers / sns / ses and etc.

Compatible services are found here.

An AWS code is basically just a giftcard. In fact Amazon says that they are promo codes, which there has never been a rule about, so strictly speaking none of the HF rules would actually apply.
