Thread: [Things You Go Back To?](#)

Devil???????????????? - September 18, 2016, 3:15 pm

Hi folks,

Not posted a "serious" thread in a while so I decided I'd ask a question:)

What are the things you go back to in your free time or when you're bored?

If you're struggling to understand my question, maybe my answer might be a give you an idea!

For me it's usually Facebook, Reddit & HackForums. I just like to see what is going on within the communities I am involved in.

Facebook, I guess.

Consuming my time minutes after minutes.

I like to go back to my elementary school playground and chill there or fuck around on the monkey set with friends.

I enjoy going back to my old schools and just taking a look around. Lots of them have changed significantly.

If I'm bored and don't have homework due in the near future (like the next day) then I go for a bike ride, if that counts. Like a really long one, 30km or so. Gives me something to do, keeps me in shape, kinda.

If you mean specifically computer related, like the website I cycle through when bored, Facebook, HF, email, reddit, in that order. Then if there's nothing, I playosu! or work on homework.
