NET::SSH Wont install so Botnet wont setup

i try
install NET::SSH
force install NET::SSH

nothing works i get this

```
[root@scan1 ~]# cpan force install NET::SSH
CPAN: Storable loaded ok (v2.45)
Reading '/root/.cpan/Metadata'
  Database was generated on Mon, 19 Sep 2016 02:53:41 GMT
Warning: Cannot install force, don't know what it is.
Try the command
```

```
i /force/
```

```
to find objects with matching identifiers.
CPAN: Time::HiRes loaded ok (v1.9725)
install is up to date (0.01).
Warning: Cannot install NET::SSH, don't know what it is.
Try the command
```

```
i /NET::SSH/
```

```
to find objects with matching identifiers.
[root@scan1 ~]#
```

I reinstalled like 6 times.

cpan force install Net::SSH try that
I beg you PLEASE read the fucking post before replying.
Also, @Spillage just install from source.

> mfw Net::SSH

Net:SSH2

qbotwithasupermicroontop - *September 19, 2016, 1:27 pm*

i swear if u DID anything and the tutorial you were following failed you resort to asking more idiots instead or heading over to google.com or stackoverflow and getting responses from real educated people
